

Independent Auditor's Report

To
The Members of
P. M. Electro-Auto Private Limited

Report on the Audit of the IND AS Standalone Financial Statements

Opinion

1. We have audited the accompanying standalone Ind AS financial statements of P. M. Electro-Auto Private Limited (the 'Company'), which comprise the standalone balance sheet as at 31st March 2022, and the standalone Statement of profit and loss (including other comprehensive income), standalone statement of changes in equity and the standalone statement of cash flow for the year then ended, and notes to the standalone financial statements, including a summary of the significant accounting policies and other explanatory information ("the standalone financial statements").
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2022, its profit and other comprehensive income, changes in equity and its cash flows for the year then ended.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Standalone Financial Statement.

Key Audit Matters

4. Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the Standalone Financial Statements of the current year. We have determined that there is no key audit matter to be communicated in our report.

Other Information

5. The Company's Board of Director are responsible for the other information. The Other information comprises the information included in the Company's annual report but does not include the Standalone Financial Statements and our auditor's report thereon. The other information is expected to be made available to us after the date of this auditor's report.

6. Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.
7. In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's responsibility for the Standalone Financial Statements

8. The Company's Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the state of affairs, profit and loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards ("Ind AS") prescribed under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
9. In preparing the Standalone Financial Statements, the management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
10. The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the Standalone Financial Statements

11. Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.
12. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - 12.1. Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is

kkc & associates llp

chartered accountants

(formerly Khimji Kunverji & Co LLP)

higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- 12.2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to Standalone Financial Statements in place and the operating effectiveness of such controls.
- 12.3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 12.4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- 12.5. Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
13. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
14. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
15. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

16. The comparative financial information of the Company for the year ended March 31, 2020 and the year ended March 31, 2021 and the transition date opening Balance Sheet as at April 01, 2019 and April 01, 2020 included in these Ind AS standalone financial statements, are based on the previously issued statutory standalone financial statements audited by Phatak Joshi & Co. Chartered Accountants (predecessor auditor), whose report dated December 23, 2020 and November 5, 2021, expressed an unmodified opinion on those standalone financial statements, as adjusted for the

differences in the accounting principles adopted by the Company on transition to the Ind AS, which have been audited by us. Our opinion is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

17. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
18. As required by Section 143(3) of the Act, we report that:
 - 18.1 We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - 18.2 In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - 18.3 The standalone balance sheet, the standalone statement of profit and loss including other comprehensive income, the statement of changes in equity and the standalone cash flow statement dealt with by this Report are in agreement with the books of account.
 - 18.4 In our opinion, the aforesaid Standalone Financial Statements comply with the Ind AS specified under Section 133 of the Act.
 - 18.5 On the basis of the written representations received from the directors as on 31 March 2022 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2022 from being appointed as a director in terms of Section 164(2) of the Act.
 - 18.6 With respect to the adequacy of the internal financial controls with reference to Standalone Financial Statements of the Company and the operating effectiveness of such controls, refer to our qualified opinion in separate Report in "Annexure B".
 - 18.7 The Company is defined as a private Company. Accordingly, the Requirements prescribed under the provisions of Section 197 of the Act do not apply.
19. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - 19.1 The Company has disclosed the impact of pending litigations as at 31 March 2022 on its financial position in its Standalone Financial Statements – Refer Note 44 to the Standalone Financial Statements.
 - 19.2 The Company has made provision, as required under the applicable law or Ind AS, for material foreseeable losses, if any, on long-term contracts including derivative contracts – Refer Note 51 to the Standalone Financial Statements.
 - 19.3 There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company

kkc & associates llp

chartered accountants

(formerly Khimji Kunverji & Co LLP)

- 19.4 The management has represented that no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries. Based on reasonable audit procedures adopted by us, nothing has come to our notice that such representation contains any material misstatement.
- 19.5 The management has represented that no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries. Based on reasonable audit procedures adopted by us, nothing has come to our notice that such representation contains any material misstatement.
- 19.6 In our opinion and according to the information and explanations given to us, there has been no declaration of Dividend and / or paid during the year Accordingly Section 123 of the Act is not applicable.

Annexure A to the Independent Auditor's Report on the Standalone Financial Statements of P.M Electro Auto Private Limited for the year ended 31 March 2022

Referred to in paragraph "17" under 'Report on Other Legal and Regulatory Requirements' section of our report of even date

- i.
 - (a) The Company has maintained proper records showing full particulars including quantitative details and situation of Property, Plant and Equipment ("PPE") and Intangible assets; it is in process of updating certain quantitative and other records pertaining to PPE and Intangible assets.
 - (b) The Company has a regular programme of physical verification of its PPE by which all PPE are verified in a phased manner over a period of three years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, certain PPE were physically verified by the management during the year. In our opinion, and according to the information and explanations given to us, no material discrepancies were noticed on such verification.
 - (c) In our opinion and according to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of all the immovable properties (other than properties where the Company is the lessee, and the lease agreements are duly executed in favour of the lessee) disclosed in the financial statements are held in the name of the Company.
 - (d) In our opinion and according to the information and explanations given to us, the Company has not revalued its PPE (including Right of Use assets) or intangible assets or both during the year.
 - (e) In our opinion and according to the information and explanations given to us and on the basis of our examination of the records of the Company, no proceedings have been initiated or are pending against the Company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.
- ii.
 - (a) In our opinion and according to the information and explanations given to us, the physical verification of inventories has been conducted at the year end by the management and, in our opinion the coverage and procedure of such verification by the management is appropriate. The discrepancies noticed on verification between the physical stocks and the book records have been properly dealt with in the books of account. For stocks lying with third parties at the year-end, written confirmations have been obtained and in respect of goods-in-transit, subsequent goods receipts have been verified or confirmations have been obtained from the parties.
 - (b) As stated in note no. 58, the Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, by banks or financial institutions on the basis of security of current assets during the year. We have observed differences in Debtors and Creditors amounts as mentioned in the quarterly/ monthly returns or statements filed by the Company with such banks or financial institutions as compared to amounts as per the books of account maintained by the Company. Further the Company maintains its inventory records through its manual records which gets continuously updated. As a result, in absence of appropriate records pertaining to details of inventories, we are unable to comment about differences, if any, in inventory amounts as appearing in the quarterly/monthly returns or statements filed by the Company with such banks or financial institutions as compared to the amounts as per books of account maintained by the Company. However, we have not carried out a specific

kkc & associates llp

chartered accountants

(formerly Khimji Kunverji & Co LLP)

audit of such quarterly/monthly returns or statements. The details of such differences/reconciliation items are given in note no. 58 of the standalone financial statements of the Company.

- iii. (a) In our opinion and according to the information and explanations given to us, the Company has made investments in, provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties, and the details are mentioned in the following table

Particulars	Guarantees	Security	Loans	Advances in the nature of loans
Aggregate amount granted/ provided during the year				
Subsidiaries	45,10,00,000		46,61,88,547	
Joint Ventures				
Associates				
Others				
Balance outstanding as at balance sheet date in respect of above cases				
Subsidiaries	45,10,00,000		29,37,32,120	
Joint Ventures				
Associates				
Others				

- (b) In our opinion and according to the information and explanations given to us, the investments made, guarantees provided, security given and the terms and conditions of the grant of all loans and advances in the nature of loans and guarantees provided are not prejudicial to the Company's interest.
- (c) In our opinion and according to the information and explanations given to us, in respect of loans and advances in the nature of loans, the schedule of repayment of principal and payment of interest has not been stipulated and the same is repayable on demand.
- (d) In our opinion and according to the information and explanations given to us, no amount is overdue in respect of loans and advances in the nature of loans.
- (e) In our opinion and according to the information and explanations given to us, neither loans or advances in nature of loans have been renewed or extended nor any fresh loans have been granted to settle the overdue of existing loans.
- (f) In our opinion and according to the information and explanations given to us, the Company has granted loans or advances in the nature of loans to Promoters/Related Parties (as defined in section 2(76) of the Act) which are either repayable on demand or without specifying any terms or period of repayment.

	All Parties	Promoters	Related Parties
Aggregate amount of loans/ advances in nature of loans			(A) 15,00,00,000 (B) 31,61,88,547
- Repayable on demand (A)			
- Inter Agreement does not specify any terms or period of repayment (B)			
Total (A+B)			46,61,88,547

kkc & associates llp

chartered accountants

(formerly Khimji Kunverji & Co LLP)

Percentage of loans/ advances in nature of loans to the total loans			100 %
---	--	--	-------

- iv. In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of sections 185 and 186 of the Act with respect to the loans given, investments made, guarantees given and security provided.
- v. In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits or amounts which are deemed to be deposits from the public during the year in terms of directives issued by the Reserve Bank of India or the provisions of Sections 73 to 76 or any other relevant provisions of the Act and the rules framed there under. Accordingly, paragraph 3(v) of the Order is not applicable to the Company.
- vi. We have broadly reviewed the books of account maintained by the Company as specified under section 148(1) of the Act, for the maintenance of cost records in respect of products manufactured by the Company, and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- vii. (a) In our opinion and according to the information and explanations given to us, amounts deducted/accrued in the books of account in respect of undisputed statutory dues including Goods and Services Tax, provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess and any other statutory dues have generally been regularly deposited by the Company to/with the appropriate authorities though there has been a slight delay in a few cases. According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees' state insurance, income-tax, Goods and Services Tax, duty of customs, cess and other material statutory dues were in arrears as at 31 March 2022 for a period of more than six months from the date they became payable.
- (b) In our opinion and according to the information and explanations given to us, we confirm that the following dues of Goods and Services Tax, provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess and any other statutory dues, have not been deposited to/with the appropriate authority on account of any dispute.

Name of the Statute	Nature of the Dues	Amount	Period to which the amount relates	Forum where dispute is pending	Remarks, if any
IGST Act, 2017	Goods and Service Tax	37.29 Lakhs	FY 2019-20 & FY 2020-21	Directorate General of GST Intelligence.	

- viii. In our opinion and according to the information and explanations given to us and on the basis of our examination of the records of the Company, we confirm that we have not come across any transactions not recorded in the books of account which have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961.

kkc & associates llp

chartered accountants

(formerly Khimji Kunverji & Co LLP)

- ix. (a) In our opinion, the Company has not defaulted in repayment of loans or other borrowings to financial institutions, banks, government and dues to debenture holders or in the payment of interest thereon to any lender.
- (b) According to the information and explanations given to us and on the basis of our audit procedures, we report that the Company has not been declared willful defaulter by any bank or financial institution or government or any government authority or any other lender.
- (b) In our opinion and according to the information and explanations given to us, the Company has utilized the money obtained by way of term loans during the year for the purposes for which they were obtained.
- (c) According to the information and explanations given to us, and the procedures performed by us, and on an overall examination of the financial statements of the Company, we report that no funds raised on short-term basis have been used for long-term purposes by the Company.
- (d) According to the information and explanations given to us and on an overall examination of the financial statements of the Company, we report that the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures.
- (e) According to the information and explanations given to us and procedures performed by us, we report that the Company has not raised loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies.
- x. (a) The Company did not raise money by way of initial public offer or further public offer (including debt instruments) during the year.
- (b) The Company has not made any preferential allotment / private placement of shares / fully / partly / optionally convertible debentures during the year.
- xi. (a) In our opinion and according to the information and explanations given to us, there has been no fraud by the Company or any fraud on the Company that has been noticed or reported during the year.
- (b) In our opinion and according to the information and explanations given to us, no report under sub-section (12) of section 143 of the Act has been filed by the auditors in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.
- (c) As represented to us by the management, there are no whistle blower complaints received by the Company during the year.
- xii. In our opinion and according to the information and explanations given to us, the Company is not a Nidhi company. Accordingly, paragraph 3(xii) of the Order is not applicable to the Company.
- xiii. According to the information and explanations given to us and based on our examination of the records of the Company, transactions with the related parties are in compliance with Sections 177 and 188 of the Act where applicable and details of such transactions have been disclosed in the financial statements as required by the applicable accounting standards.

kkc & associates llp

chartered accountants

(formerly Khimji Kunverji & Co LLP)

- xiv. (a) In our opinion and based on our examination, the Company has an internal audit system but the same needs to be enhanced in order to make it commensurate with the size of the Company and nature of its Business.
- (b) We have considered, the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.
- xv. According to the information and explanations given to us, in our opinion during the year the Company has not entered into any non-cash transactions with its directors or persons connected with its directors. Accordingly, paragraph 3(xv) of the Order is not applicable to the Company. and hence provisions of section 192 of the Act, 2013 are not applicable to the Company.
- xvi. (a) In our opinion, the Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, paragraph 3(xvi)(a) of the Order is not applicable to the Company.
- (b) In our opinion, the Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, paragraph 3(xvi)(b) of the Order is not applicable to the Company
- (c) The Company is not a CIC as defined in the regulations made by Reserve Bank of India.
- (d) According to the information and explanations provided to us, the Group (as per the provisions of the Core Investment Companies (Reserve Bank) Directions, 2016) does not have CIC.
- xvii. The Company has not incurred any cash losses in the financial year and in the immediately Preceding financial year.
- xviii. There has been no resignation of the statutory auditors during the year and accordingly this clause is not applicable / paragraph 3(xviii) of the Order is not applicable.
- xix. According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- xx. The Company has fully spent the required amount towards Corporate Social Responsibility (CSR) and there are no unspent CSR amount for the year requiring a transfer of Fund specified in Schedule VII to the Companies Act or special account in compliance with provision of sub-section (6) of section 135 of said Act. Accordingly, reporting under clause (XX) of the order is not applicable for the year

kkc & associates llp

chartered accountants

(formerly Khimji Kunverji & Co LLP)

xxi. Reporting under clause xxi of the Order is not applicable at the standalone level of reporting.

Date: 30 December 2022

Annexure B to the Independent Auditors' report on the Standalone Financial Statements of the P. M. Electro-Auto Private Limited for the year ended 31 March 2022

Referred to in paragraph "18.6" under 'Report on Other Legal and Regulatory Requirements' section of our report of even date

Report on the Internal Financial Controls with reference to the Standalone Financial Statements under Clause (i) of sub-section 3 of section 143 of the Companies Act, 2013.

Qualified Opinion

1. We have audited the internal financial controls with reference to the Standalone Financial Statements of P. M. Electro-Auto Private Limited ("the Company") as at 31 March 2022 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.
2. According to the information and explanation given to us, the following material weakness has been identified in the operating effectiveness of the Company's internal financial controls over financial reporting as at 31 March, 2022:
 - a) The Company's internal financial controls over inventory management could not be verified since the Company maintains its inventory records through its manual records which gets continuously updated with the movement of the stock and there are no controls present that enable the Company to maintain an audit trail for the same for our verification. Based on the above, in the absence of demonstration of controls for Inventory management, we are unable to comment whether the controls for Inventory management were operating effectively or not.
3. A 'material weakness' is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual financial statements will not be prevented or detected on a timely basis.
4. The Company has framed process document and risk control matrix for certain key processes relating to internal financial controls with reference to financial statements. In our opinion, considering the internal control with reference to financial statements, criteria established by the Company and the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI and to justify existence and operative effectiveness of the said controls, the Company need to strengthen the documentation of identified risk & controls to make it commensurate with the size of the Company and nature of its business.
5. We have considered the material weakness identified and reported above in determining the nature, timing, and extent of audit tests applied in our audit of the 31 March, 2022 financial statements of the Company, and this material weakness does not affect our opinion on the standalone financial statements of the Company.

Management's responsibility for Internal Financial Controls

6. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business,

including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's responsibility

7. Our responsibility is to express an opinion on the Company's internal financial controls with reference to the Standalone Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing ("SA"), prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to the Standalone Financial Statements. Those SAs and the Guidance Note require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to the Standalone Financial Statements were established and maintained and whether such controls operated effectively in all material respects.
8. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to the Standalone Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to the Standalone Financial Statements included obtaining an understanding of internal financial controls with reference to the Standalone Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error.
9. We believe that the audit evidence we have obtained is sufficient to provide a basis for our audit opinion on the Company's internal financial controls with reference to the Standalone Financial Statements.

Meaning of Internal Financial Controls with reference to the Standalone Financial Statements

10. A company's internal financial controls with reference to the Standalone Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to the Standalone Financial Statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the Standalone Financial Statements.

Inherent Limitations of Internal Financial Controls with reference to the Standalone Financial Statements

11. Because of the inherent limitations of internal financial controls with reference to the Standalone Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to the Standalone Financial Statements to future periods are subject to the risk that the internal financial controls with reference to the Standalone Financial Statements may become further inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

P.M. ELECTRO-AUTO PRIVATE LIMITED
CIN: U29219MH2006PTC161285

1. Corporate information

P.M. Electro Auto Private Limited (the company) is a Private company domiciled in India. The company is engaged in the manufacturing and selling of steel based products. The company is having 5 types of business verticles such as Furniture, Automobile Components, Lighting solutions & panel boards, Switch Boards & Control Panels and Solar mounting structures. The P.M. group is in existence since 1992 & It was formed as private limited company in 2006.

Company has wholly owned subsidiary company which is engaged in manufacturing of Torque Tubes which is a critical part of solar mounting structures. At a group level the company operates through 11 manufacturing set ups in Maharashtra & Gujarat.

Company is carrying out both domestic as well as exports sales. It also imports raw materials & capital goods.

Having registered office address at A-406, Western Edge II, CCI, Borivali east-400066.

Basis of preparation:

a. Basis of Preparation and Compliance with Ind As:

The Company has prepared the financial statements which comprise the Balance Sheet as at 31 March 2022, the statement of profit and loss, the statement of cash flows and the statement of changes in equity for the year ended 31 March 2022 and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "financial statements"). The financial statements are approved by the Board of Directors of the Company at their meeting held on 30th December, 2022.

Basis of Measurement:

The financial statements have been prepared on a going concern basis under the historical cost basis except for the following –

- Certain financial assets and liabilities have been measured at fair value (refer accounting policy regarding financial instruments); and
- Defined benefit plans – measured using actuarial valuation.

The financial statements have been prepared using the significant accounting policies and measurement basis summarised below. These were used throughout all periods presented in the financial statements, except where the Company has applied certain accounting policies and exemptions upon transition to Ind AS.

Functional and presentational currency:

The financial statements are prepared in Indian Rupees, which is the Company's functional and presentation currency. All financial information presented in Indian Rupees has been rounded to the nearest lacs with two decimals.

Operating Cycle:

Based on the nature of products/activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

Classification of Assets and Liabilities into Current/ Non- Current:

The Company has ascertained its operating cycle as twelve months for the purpose of Current/ Non-Current classification of its Assets and Liabilities.

For the purpose of Balance Sheet, an asset is classified as current if:

- a. It is expected to be realised, or is intended to be sold or consumed, in the normal operating cycle; or
- b. It is held primarily for the purpose of trading; or
- c. It is expected to realise the asset within twelve months after the reporting period; or
- d. The asset is a cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current if:

- a. It is expected to be settled in the normal operating cycle; or
- b. It is held primarily for the purpose of trading; or
- c. It is due to be settled within twelve months after the reporting period; or
- d. The Company does not have an unconditional right to defer the settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

Compliance with Ind As:

The financial statements of the Company have been prepared in accordance with Ind AS notified by the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016. Accordingly, the financial statements for the year ended 31 March 2022 are the Company's first Ind AS financial statements.

For periods up to and including the year ended 31 March 2022, the Company prepared its financial statements in accordance with accounting standards notified under section 133 of the Companies Act 2013 (the 'Act'), read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (hereinafter referred to as 'previous GAAP') for its statutory reporting requirement in India before adopting Ind AS. The financial statements for the comparative year ended 31 March 2021 and opening balance sheet at the beginning of the comparative year as at 1 April 2020 have also been restated in accordance with Ind AS for comparative information. Reconciliations and explanations of the effect of the transition from previous GAAP to Ind AS on the Company's balance sheet, statement of profit and loss and statement of cash flows are provided in note XXX to these financial statements.

b. Critical estimates and judgements:

The preparation of financial statements in conformity with Ind As requires management to make estimates, assumptions and exercise judgement in applying the accounting policies that affect the reported amount of assets, liabilities and disclosure of contingent liabilities at the date of financial statements and the reported amount of income and expenses during the year.

The management believes that these estimates are prudent and reasonable and are based upon the management's best knowledge of current events and actions. Actual results could differ from these estimates and differences between actual results and estimates are recognised in the periods in which the results are known or materialised.

Below is an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed.

- Useful lives of property, plant and equipment - Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by the management, based on those prescribed under Schedule II to the Act, at the time the asset is acquired and reviewed periodically, including at each financial year end.
- Defined benefit obligation - The cost of post-employment benefits is determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, future salary increases and mortality rates. Due to the long term nature of these plans, such estimates are subject to significant uncertainty. The assumptions used are disclosed in Note 45 to these financial statements.
- Fair value measurements – Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument.
- Impairment of assets – In assessing impairment, management estimates the recoverable amounts of each asset (in case of non-financial assets) based on expected future cash flows and uses an interest rate to discount them. Estimation uncertainty relates to assumptions about future cash flows and the determination of a suitable discount rate.
- Income tax - Significant judgments are involved in determining the provision for income tax, including the amount expected to be paid or recovered in connection with uncertain tax positions.
- Provisions - Provisions are recognised when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions (excluding retirement obligation and compensated expenses) are not discounted to its present value and are determined based on the best estimate required to settle obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates

c. Property, Plant and Equipment

Property, plant and equipment, capital work in progress are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalization criteria are met, directly attributable cost of bringing the asset to its working condition for the intended use and initial estimate of decommissioning,

restoring and similar liabilities. Any trade discounts and rebates are deducted in arriving at the purchase price. Such cost includes the cost of replacing part of the plant and equipment. When significant parts of property, plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives.

Items of stores and spares that meet the definition of property, plant and equipment are capitalized at cost and depreciated over their useful life. Otherwise, such items are classified as inventories.

The company adjusts exchange differences arising on translation/ settlement of long-term foreign currency monetary items pertaining to the acquisition of a depreciable asset to the cost of the asset and depreciates the same over the remaining life of the asset.

Gains or losses arising from derecognition of property, plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

d. Depreciation on property, plant and equipment

Depreciation on property, plant and equipment is the systematic allocation of the depreciable amount over its useful life and is provided on a WDV basis over such useful lives as prescribed in Schedule II to the act or as per technical assessment conducted by the Management. Freehold land with indefinite life is not depreciated.

Depreciable amount of PPE is the cost of PPE less its estimated residual value. The useful life of PPE is the period over which PPE is expected to be available for use by the Company.

Depreciation method, useful life and residual value are reviewed periodically and, when necessary, revised. No further charge is provided in respect of assets that are fully written down but still in use.

e. Intangible assets and ammortisation:

Intangible assets acquired separately are measured on initial recognition at cost. Intangible assets are amortized on a WDV basis over the estimated useful economic life. The company uses a rebuttable presumption that the useful life of an intangible asset will not exceed 5 years from the date when the asset is available for use. If the persuasive evidence exists to the affect that useful life of an intangible asset exceeds five years, the company amortizes the intangible asset over the best estimate of its useful life.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

f. Impairment of property, plant and equipments and intangible assets

The carrying amount of the non- financial assets are reviewed at each balance sheet date if there is any indication based on internal/ external factors. An impairment loss is recognised whenever the carrying amount of an asset or cash generating unit exceeds its recoverable amount. The recoverable amount of the assets (or where applicable, that of the cash

generating unit to which the asset belongs) is estimated to be higher of its net selling price and its value in use. Impairment loss is recognised in the statement of profit and loss.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the company estimates the asset's or cash-generating unit's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit and loss.

g. Leases

The Company assesses whether a contract contains a lease, at the inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the contract involves the use of identified asset;
- (ii) the Company has substantially all the economic benefits from the use of the asset through the period of lease and;
- (iii) the Company has the right to direct the use of the asset.

Where the Company is the lessee

The Company recognises a right-of-use asset ("ROU") and a lease liability at the lease commencement date. The ROU is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

Certain lease arrangements include the option to extend or terminate the lease before the end of the lease term. The right of-use assets and lease liabilities include these options when it is reasonably certain that the option will be exercised.

The ROU is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the company's incremental borrowing rate. Generally, the company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprises fixed payments, including in-substance fixed payments, amounts expected to be payable under a residual value guarantee and the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments is an optional renewal period if the company is reasonably certain to exercise an extension option.

The lease liability is subsequently measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the ROU or is recorded in Statement of Profit or Loss if the carrying amount of the ROU has been reduced to zero.

Lease Liabilities have been presented in 'Financial Liabilities' and the 'ROU' have been presented separately in the Balance Sheet. Lease payments have been classified as financing activities in the Statement of Cash Flows.

Where the company is the lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

The Company recognises lease payments received under operating leases as income on a straight- line basis over the lease term.

Short- term leases:

The Company has elected not to recognise ROU and lease liabilities for short term leases that have a lease term of 12 months or lower. The Company recognises the lease payments associated with these leases as an expense over the lease term. The related cash flows are classified as Operating activities in the Statement of Cash Flows.

h. Borrowing costs:

Borrowing cost includes interest and amortization of ancillary costs incurred in connection with the arrangement of borrowings.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

i. Government grants :

Government grants relate to income under State Investment Promotion scheme linked with GST payment and reimbursement of certain costs incurred, are recognised in the statement of Profit and Loss in the period in which they become receivable.

Government grants are not recognised until there is reasonable insurance that the Company will comply with the conditions attached to them and that the grants will be received.

j. Investments in subsidiaries, associates and Joint Ventures:

The Company's investment in its subsidiaries, associates and joint ventures are carried at cost net of accumulated impairment loss, if any.

On disposal of the investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the Statement of Profit & Loss.

k. Financial Instruments:

A Financial Instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial assets & financial liabilities are recognised when the Company becomes party to contractual provisions of the relevant instruments.

Initial recognition and measurement:

All financial assets and liabilities are initially recognised at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are adjusted to the fair value of the financial assets or financial liabilities on initial recognition. Transaction costs directly attributable to acquisition or issue of financial assets or financial liabilities at fair value through profit or loss are charged to the Statement of Profit and Loss over the tenure of the financial assets or financial liabilities.

Classification and Subsequent Measurement: Financial Assets

• Financial assets carried at Amortised Cost:

A financial asset shall be classified and measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. In case of financial assets classified and measured at amortised cost, any interest income, foreign exchange gains or losses and impairment are recognised in the Statement of Profit and Loss.

• Financial assets at Fair Value through Other Comprehensive Income (FVTOCI):

A financial asset shall be classified and measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

• Financial assets at Fair Value through profit or loss (FVTPL):

A financial asset shall be classified and measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through OCI.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

For financial assets at FVTPL, net gains or losses, including any interest or dividend income, are recognised in the Statement of Profit and Loss.

Classification and Subsequent Measurement: Financial Liabilities:

Financial liabilities are classified as either financial liabilities at FVTPL or 'other financial liabilities'

• **Financial liabilities at FVTPL:**

Financial liabilities are classified as at FVTPL when the financial liability is held for trading or are designated upon initial recognition at FVTPL. Gains or losses, including interest expenses on liabilities held for trading are recognised in the Statement of profit or loss.

• **Other Financial liabilities:**

Other Financial liabilities (including borrowings and trade and other payables) are subsequently measured at amortised cost using the effective interest method.

Impairment of Financial Assets:

In accordance with Ind AS 109, the Company uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL).

In case of trade receivables, Company applies 'simplified approach' which requires expected lifetime losses to be recognised from initial recognition of the receivables. The application of simplified approach does not require the Company to track changes in credit risk. The Company calculates the expected credit losses on trade receivables using a provision matrix on the basis of its historical credit loss experience.

For other assets, the Company uses 12-month ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk lifetime ECL is used.

Derecognition of Financial Instruments:

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire or when it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109.

On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in OCI and accumulated in equity is recognised in the Statement of Profit and Loss.

A financial liability (or a part of a financial liability) is derecognised from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires. The difference between the carrying amount of the financial liability de-recognised and the consideration paid and payable is recognised in the Statement of Profit and Loss.

I. Fair Value Measurement:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

m. Inventories

Raw materials, components, stores and spares are valued at lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost of raw materials, components and stores and spares is determined on a weighted average basis.

Stores and spares which do not meet the definition of property, plant and equipment are accounted as inventories.

Work-in-progress and finished goods are valued at lower of cost and net realizable value. Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. Cost is determined on a weighted average basis.

Traded goods are valued at lower of cost and net realizable value. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on a weighted average basis.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

n. Revenue recognition:

i. Revenue from Contract with customers

Revenue is recognized on the basis of approved contracts regarding the transfer of goods or services to a customer for an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Revenue is measured at fair value of consideration received or receivable taking into account the amount of discounts, incentives, volume rebates and outgoing taxes on sales.

Revenues from management consulting are recognized over the period of the consulting as and when services are rendered. The company collects GST on behalf of the government and, therefore, it is not an economic benefit flowing to the company. Hence, it is excluded from revenue.

ii. Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis by reference to the principal outstanding and the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

iii. Dividend income from investments is recognized when the shareholder's right to receive dividend is established by the reporting date.

o. Foreign currency transactions:

Foreign currency transactions are recorded at exchange rate prevailing on the date of the transactions. Foreign currency denominated monetary assets and liabilities are restated into the functional currency using exchange rates prevailing on the Balance Sheet date. Gains and losses arising on settlement and restatement of foreign currency denominated monetary assets and liabilities are recognised in the statement of profit and loss. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined.

Non-Monetary items that are measured in terms of historical cost in a foreign currency are translated using exchange rate as at the date of initial transactions.

p. Earnings per share:

The Basic Earnings Per Share ("EPS") is computed by dividing the net profit / (loss) after tax for the year attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, net profit/loss after tax for the year attributable to the equity shareholders is divided by the weighted average number of equity shares outstanding during the year adjusted for the effects of all dilutive equity shares.

q. Employee benefit Expense:

Defined benefit plan:

The Company has defined benefit plan for post-employment benefits, for all employees in the form of Gratuity. The Company's liabilities under Payment of Gratuity Act are determined on the basis of independent actuarial valuation. The liability in respect of gratuity is calculated using the Projected Unit Credit Method and spread over the period during which the benefit is expected to be derived from employees' services.

Re-measurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the Balance Sheet with a charge or credit recognised in Other Comprehensive Income (OCI) in the period in which they occur. Remeasurement recognised in OCI is reflected immediately in retained earnings and will not be reclassified to Statement of Profit and Loss. Past service cost is recognised in the Statement of Profit and Loss in the period of a plan amendment. Interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset and is recognised in the Statement of Profit and Loss.

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds.

The defined benefit obligation recognised in the Balance Sheet represents the actual deficit or surplus in the Company's defined benefit plan. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

Defined contribution plan:

Payments to defined contribution plans are recognised as an expense when employees have rendered service entitling them to the contributions.

The eligible employees of the Company are entitled to receive benefits in respect of provident fund, for which both the employees and the Company make monthly contributions at a specified percentage of the covered employees' salary. The contributions as specified under the law are made to the Government Provident Fund monthly.

Short-term employee benefits:

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave in the period the related service is rendered. Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Other long – term employee benefits:

The Company's net obligation in respect of long – term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Remeasurement is recognised in Statement of Profit and Loss in the period in which they arise.

Entitlements to annual privilege leave are recognized when they accrue to employees. Privilege leave can be availed or encashed subject to a restriction on the maximum number of accumulation of leave. The Company determines the liability for such accumulated leaves using the projected unit credit method with actuarial valuations being carried out at each reporting date.

r. Income taxes:

The tax expense for the period comprises current and deferred tax. Tax is recognised in Statement of Profit and Loss, except to the extent that it relates to items recognised in the comprehensive income or in equity. In which case, the tax is also recognised in other comprehensive income or equity.

Current Tax:

Current Tax is measured on the basis of estimated taxable income for the current accounting period in accordance with the applicable tax rates and the provisions of the Income-tax Act, 1961 and other applicable tax laws.

Deferred Tax:

Deferred tax is recognised, on all temporary differences at the reporting date between the tax base of assets and liabilities and their carrying amounts for financial reporting purpose. Deferred tax liabilities and assets are measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting date.

Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and the liability on a net basis. Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities; and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. The carrying amount of Deferred tax liabilities and assets are reviewed at the end of each reporting period date and are reduced to the extent that it is no longer probable.

s. Segment Reporting- Identification of segments

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the company's Chief Operating Decision Maker ("CODM") to make decisions for which discrete financial information is available.

Based on the management approach as defined in Ind AS 108, the CODM evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments.

t. Earnings Per Share:

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

u. Provisions, Contingent Liabilities and Contingent Assets:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects current market assessment of time value of money and, where appropriate, the risks specific to the liability. Unwinding of the discount is recognised in the Statement of Profit and Loss as a finance cost. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate.

A present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

Claims against the Company where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities.

Contingent assets are not recognised in financial statements since this may result in the recognition of income that may never be realised. However, when the realization of income is virtually certain, then the related asset is not a contingent asset and is recognised. A contingent asset is disclosed, in financial statements, where an inflow of economic benefits is probable.

v. Cash and cash equivalents:-

Cash and cash equivalents comprise cash on hand and demand deposits, together with other current / short- term, highly liquid investments (original maturity of less than 3 months) that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

w. Derivative financial instruments and hedge accounting:

The Company enters into derivative financial contracts in the nature of forward currency contracts with external parties to hedge its foreign currency risks relating to foreign currency denominated financial liabilities/ financial assets measured at amortized cost. The Company formally establishes a hedge relationship between such forward currency contracts ('hedging instrument') and recognized financial liabilities/ financial assets ('hedged item') through a formal documentation at the inception of the hedge relationship in line with the Company's Risk Management objective and strategy.

The hedge relationship so designated is accounted for in accordance with the accounting principles prescribed for a fair value hedge under Ind AS 109, 'Financial Instruments'.

Recognition and measurement of fair value hedge:

Hedging instrument is initially recognized at fair value on the date on which a derivative contract is entered into and is subsequently measured at fair value at each reporting date. Gain or loss arising from changes in the fair value of hedging instrument is recognized in the Statement of Profit and Loss. Hedging instrument is recognized as a financial asset in the Balance Sheet if its fair value as at reporting date is positive as compared to carrying value and as a financial liability if its fair value as at reporting date is negative as compared to carrying value.

Hedged item (recognized financial liability/financial asset) is initially recognized at fair value on the date of entering into contractual obligation and is subsequently measured at amortized cost. The hedging gain or loss on the hedged item is adjusted to the carrying value of the hedged item as per the effective interest method and the corresponding effect is recognized in the Statement of Profit and Loss.

Notes to the Financial Statements

39 Capital Management (Ind AS 11)

The Company's objectives when managing capital are to:
i) maximize shareholder value and provide benefits to other stakeholders and,
ii) maintain an optimal capital structure to reduce the cost of capital.

The capital structure of the Company consists of issued capital, share premium and all other equity reserves attributable to the equity holders. The company's risk management committee reviews the capital structure of the company. The Company monitors capital using debt-equity ratio, which is total debt divided by total equity.

Particulars	₹ in lakhs

41 Financial Risk Management Objectives (Ind AS 107)

The Company's principal financial liabilities, other than derivatives, comprises of borrowings, trade and other payables. These are primarily represents liabilities from operations and financial liabilities to finance the company's operations. The company's principal financial assets, other than derivatives include trade and other receivables, investments and cash and cash equivalents that derive directly from its operations.

The Company's activities expose it to market risk, liquidity risk and credit risk. The Company's overall risk management focuses on the unpredictability of financial markets and seek to minimize potential adverse effects on the financial performance of the Company. The company uses derivative financial instruments, such as foreign exchange forward contracts that are entered to hedge foreign currency risk exposure. Derivatives are used exclusively for hedging purposes and not as trading or speculative instruments.

The sources of risks which the company is exposed to and their management is given below:

Risk	Exposure Arising From	Measurement	Management
A. Market Risk			
1) Foreign Exchange Risk	Committed commercial transaction Financial Instruments not denominated in INR	Cash Flow Forecasting Sensitivity Analysis	Forward foreign exchange contracts
2) Interest Rate	Long Term borrowings of variable rates	Sensitivity Analysis, Interest rate movements	Active monitoring of interest rates volatility
3) Commodity Price Risk	Movement in prices of commodities	Sensitivity Analysis, Commodity price tracking	Active inventory management, Sales Price linked to purchase price
B. Credit Risk	Trade receivables, investments, Derivative financial instruments, loans	Aging analysis, Credit Rating	Credit limit and credit worthiness monitoring, Criteria based approval process
C. Liquidity Risks	Borrowings and Other Liabilities and Liquid investments	Rolling cash flow forecasts	Monitoring of credit lines and borrowing limits

The Company has policies, procedures and authorisation matrix for utilisation of funds, which ensures deployment of fund in prudent manner and the availability of funding through an adequate amount of credit facilities to meet obligation when due. Compliances of these policies and procedures are reviewed by internal auditors on periodical basis.

The Company's treasury team updates Senior management on periodical basis about implementation and execution of above policies. It also updates senior management on periodical basis about various risk to the business and status of various activities planned to mitigate the risk.

A. Market Risk

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, commodity prices, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and borrowings.

1) Foreign Currency risk

Foreign currency risk is the risk of impact related to fair value or future cash flows of an exposure in foreign currency, which fluctuate due to changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to import of raw materials, capital expenditure and exports. When a derivative is entered for the purpose of being a hedge, the Company negotiates the terms of those derivatives to match the terms of the hedged exposure.

The Company evaluates exchange rate exposure arising from foreign currency transactions. The Company follows established risk management policies and procedures. It uses derivative instruments like foreign currency forwards to hedge exposure to foreign currency risk.

Outstanding foreign currency exposure	₹ in lakhs		
	As at 31-03-2022	As at 31-03-2021	As at 01-04-2020

Particular	₹ in lakhs		
	As at 31-03-2022	As at 31-03-2021	As at 01-04-2020
USD			

2) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rate. In order to optimize the Company's position with regards to interest income and interest expenses and to manage the interest rate risk, treasury performs a comprehensive corporate interest rate risk management by balancing the proportion of fixed rate and floating rate financial instruments in its portfolio. The Company is not exposed to significant interest rate risk as at the respective reporting dates.

Interest Rate exposure

Particular	₹ in lakhs	
	Total Borrowing	Floating Rate Borrowing
INR	11,465.50	3,558.78
Total as at March 31, 2022	11,465.51	3,558.78
INR	7,752.77	2,101.33
Total as at March 31, 2021	7,752.77	3,101.83
INR	5,393.54	1,657.70
Total as at April 01, 2020	5,393.54	1,657.70

Note: Interest rate risk hedged for foreign currency loan has been shown under Fixed Rate borrowings.

P.M.Electro-Auto Private Limited
CIN NO : U29219MH2006PTC161285
Notes to the Financial Statements

Interest rate sensitivities for unhedged exposure
Gain / (Loss) due to increase in interest rates by 100 bps

Particular	₹ in lakhs		
	As at 31-03-2022	As at 31-03-2021	As at 01-04-2020
Net	42.26	31.01	16.55

Note: If the rate is decreased by 100 bps profit will increase by an equal amount.

Interest rate sensitivity has been calculated assuming the borrowings are outstanding at the reporting date have been outstanding for the entire reporting period. Further, the calculations for unhedged floating rate borrowing have been done on the INR value of foreign currency borrowing.

Forward exchange Contracts:

(a) Derivatives for hedging currency and interest rates, outstanding are as under:

Particular	Purpose	Currency	₹ in lakhs		
			As at 31-03-2022	As at 31-03-2021	As at 01-04-2020
Forward Contracts	Exports	USD (in Lakh)	348.76	146.03	85.08

(b) Commodity Price Risk

Commodity price risk for the Company is mainly related to fluctuations in raw material prices linked to various external factors, which can affect the production cost of the Company. To manage this risk, the Company monitors factors affecting prices, identifies new sources of supply of raw material, monitors inventory level, etc. Additionally, processes and policies related to such risks are reviewed and controlled by senior management and monitored by the procurement department.

B. Credit Risk Management

Credit risk arises when a customer or counterparty does not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing / investing activities, including deposits with banks, foreign exchange transactions and financial guarantees. The Company has no significant concentration of credit risk with any counterparty.

Trade Receivable

Trade receivables are consisting of a large number of customers / distributors. The Company has credit evaluation policy for each customer / distributor and based on the evaluation credit limit of each customer / distributor is defined. The Company's marketing team are responsible for monitoring receivable on periodical basis.

Total trade receivable as on March 31, 2022 is ₹. 5592.58 Lakhs (March 31, 2021 ₹. 5053.08 Lakhs, April 1, 2020 ₹. 4662.05 Lakhs.)

As per simplified approach, the Company makes provision of expected credit losses on trade receivables using a provision matrix to mitigate the risk of default payments and market appropriate provision at each reporting date wherever outstanding is for longer period and involves higher risk. The policy for creating provision for credit losses on trade receivables is as per following provision matrix:-

Particular	Loss Allowance Provision
0 to Six Months	Nil
Above Six Months and upto Twelve Months	5%
Above twelve Months and upto Eighteen Months	25%
Above eighteen months and upto Thirty six Months	50%
Above Thirty six Months	100%

Movement of provision for doubtful debts:

Particular	₹ in lakhs		
	As at 31-03-2022	As at 31-03-2021	As at 01-04-2020
Opening Provision	137.64	110.19	-
Add: Provision during the year	0.28	27.46	110.19
Less: Utilised during the year	-	-	-
Closing Provision	137.92	137.64	110.19

Investments, Derivative Instruments, Cash and Cash Equivalent and Bank Deposit:

Credit Risk on cash and cash equivalent, deposits with the banks / financial institutions is generally low as the said deposits have been made with the banks / financial institutions who have been assigned high credit rating by international and domestic rating agencies.

Credit Risk on Derivative Instruments are generally low as Company enters into the Derivative Contracts with the reputed Banks and Financial Institutions.

B. Liquidity Risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at reasonable price. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of credit facilities to meet obligations when due. The Company's treasury team is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the Company's liquidity position through rolling forecasts on the basis of expected cash flows.

The table below provides details regarding the remaining contractual maturities of financial liabilities and investments held for managing the risk at the reporting date based on contractual undiscounted payments.

42 Fair Value Measurements (Ind AS 113)

P.M.Electro-Auto Private Limited
CIN NO : U29219MH2006PTC161285

Notes to the Financial Statements

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in an orderly transaction in the principal (or most advantageous) market at measurement date under the current market condition regardless of whether that price is directly observable or estimated using other valuation techniques. The Company has established the following fair value hierarchy that categorises the values into 3 levels. The inputs to valuation techniques used to measure fair value of financial instruments are:

Level 1: This hierarchy uses quoted (unadjusted) prices in active markets for identical assets or liabilities. The fair value of all quoted investments which are traded in the stock exchanges is valued using the closing price or dealer quotations as at the reporting date.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on company specific estimates. Unquoted investments are valued using the closing Net Asset Value. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

Particular	Fair Value		
	As at 31-03-2022	As at 31-03-2021	As at 01-04- 2020
Financial Assets at fair value through profit or loss			
Investments-Level 1			
Investments-Level 2	500.57	0.71	0.71
Fair Value hedging instruments			
Derivative Liability/ (Assets) - level 2			
Total	500.57	0.71	0.71

The management assessed that cash and bank balances, trade receivables, trade payables, cash credits and other financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The following methods and assumptions were used to estimate the fair values:

- The fair values of the quoted investments are based on market price/net asset value at the reporting date.
- The fair value of unquoted investments is based on closing Net Assets Value.
- The fair value of forward foreign exchange contracts is calculated as the present value determined using forward exchange rates and interest rate curve of the respective currencies.
- The fair value of currency swap is calculated as the present value determined using forward exchange rates, currency basis spreads between the respective currencies, interest rate curves and an appropriate discount factor.
- The fair value of the remaining financial instruments is determined using discounted cash flow analysis. The discount rates used is based on management estimate.

Cash & Cash equivalents as at March 31, 2021	7,552.99	(6,950.21)	602.78

Notes to the Reconciliation of equity as at April 1, 2020 and March 31, 2021 and Total Comprehensive income for the year ended March 31, 2021:

A. On account of changes in accounting policies

A1. Fair valuation of Security Deposits

Interest free deposits have been fair valued and are discounted using an appropriate current market rate. The difference between the nominal value and the fair value of the deposit under the lease is considered as Prepaid Rent, which is unwinded on a straight line basis over the period of the lease. The company also recognizes interest expenses using the discounting rate, over the life of the deposit. These adjustments are reflected in retained earnings as at the date of transition and subsequently in the statement of profit and loss.

A2. Allowances for Credit losses

For Provision of Credit losses on Trade Receivables, the company has adopted Simplified Approach where by provision of expected credit losses is made using a provision matrix to mitigate the risk of default payments.

A3. Deferred Tax

IGAAP requires deferred tax accounting using the income statement approach, which focuses on differences between taxable profits and accounting profits for the period. Ind AS 12 requires entities to account for deferred taxes using the balance sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base. The application of Ind AS 12 approach has resulted in recognition of deferred tax on new temporary differences which was not required under IGAAP. In addition, the various transitional adjustments lead to temporary differences. According to the accounting policies, the Company has to account for such differences. Deferred Tax adjustments are recognised in correlation to the underlying transaction either in retained earnings or profit and loss respectively

A4. Right of Use Assets

The Company recognizes a right-of-use asset ("ROU") and a lease liability at the lease commencement date. The ROU is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

A5. Current Tax

The transitional adjustments have lead to differences in Provision for Tax. According to the accounting policies, the Company has to account for such differences. Current Tax adjustments are recognised in correlation to the underlying transaction in Profit and Loss Statement.

A6. Unamortised Processing fees on loan

Under Previous GAAP, processing fees on loan was charged entirely to Statement of Profit and Loss. However, under IND AS, the same has been accounted as per Ind As 109

A7. Straightlining of Rental Income

Under Previous GAAP, rental income was recognised in the financials at the amount actually receivable. However, under Ind As, future incrementals in rental income were recognised on a straight line basis over the period of the lease and a lease equalisation reserve is created for the differential amount.

B. On account of Errors

B1. Inventories

Errors were observed in inventory sold as free sample which were now rectified.

B2. Sales and Trade Receivables

Errors were observed in revenue recognition w.r.t to cut-off which were now rectified.

B3. Defined Benefit Liabilities

Errors were observed in recognition and measurement of post employment defined benefits plan which were now rectified.

B4. Mark to Market of derivatives

Errors were observed in recognition and measurement of forward contracts which were now rectified.

B5. Bonus Provision

Errors were observed in recognition and measurement of bonus payable to workers which were now rectified.

B6. Interest on MSME

Errors were observed in recognition and measurement of interest on msme dues payable to parties which were now rectified.

B7. PSI Incentive

Errors were observed in recognition of PSI incentive which were now rectified

B8. Reversal of Excess Income Tax Provision

Errors were observed in reversal of income tax provision which were now rectified

xii) Sensitivity Analysis for significant assumption

Particulars	₹ in lakhs	
	As at March,22	As at March,2021
0.5% Increase in discount rate	-5.42%	-5.64%
0.5% decrease in discount rate	5.90%	6.15%
0.5% Increase in salary escalation clause	5.83%	6.05%
0.5% Decrease in salary escalation clause	-5.40%	-5.60%

* These Sensitivities have been calculated to show the movement in defined benefit obligation in isolation and assuming there are no other changes in market conditions at the accounting date. There have been no changes from the previous periods in the methods and assumptions used in preparing the sensitivity analysis.

xiii) The estimates of future salary increases considered in actuarial valuation takes into account inflation, seniority, promotion and other relevant factors

xiv) Asset Liability matching strategy:

The money contributed by the Company to the Gratuity fund to finance the liabilities of the plan has to be invested for funded gratuity plan. The trustees of the such plan have outsourced the investment management of the fund to an Insurance Company. The Insurance Company in turn manages these funds as per the mandate provided to them by the trustees and the asset allocation which is within the permissible limits prescribed in the insurance regulation. Due to the restriction in the type of investment that can be held by the fund, it is not possible to explicitly follow an asset liability matching strategy. There is no compulsion on the part of the Company to fully prefund the liability of the Plan.

46 Earnings Per Share (IND AS 33)

Independent Auditor's Report

To

The Members of

P. M. Electro-Auto Private Limited

Report on the audit of the Consolidated Financial Statements

Opinion

1. We have audited the accompanying consolidated Ind AS financial statements of P. M. Electro-Auto Private Limited ("the Holding Company" or "the Parent" or "the Company") and its subsidiary (the parent and its subsidiary together referred to as "the Group"), which comprise the consolidated balance sheet as at 31 March 2022 and the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information ("the Consolidated Financial Statements").
2. In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of report of other auditor on separate financial statements of such subsidiary, as was audited by the other auditor, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, as at 31 March 2022, and its consolidated profit and other comprehensive income, consolidated changes in equity and its consolidated cash flows for the year then ended.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group, in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the Act, and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained along with the consideration of audit reports of the other auditors referred to in the "Other Matters" paragraph below is sufficient and appropriate to provide a basis for our opinion on the Consolidated Financial Statements.

Key Audit Matters

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements of the current year. We have determined that there is no key audit matter to be communicated in our report.

Other Information

5. The Holding Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Holding Company's annual report but does

kkc & associates llp

chartered accountants

(formerly Khimji Kunverji & Co LLP)

not include the Consolidated Financial Statements and our auditors' report thereon. The Other Information is expected to be made available to us after the date of this auditor's report.

6. Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.
7. In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed and based on the work done / audit report of other auditors, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's responsibility for the Consolidated Financial Statements

8. The Holding Company's Board of Directors are responsible for the preparation and presentation of these Consolidated Financial Statements, that give a true and fair view of the consolidated state of affairs, consolidated profit and loss and other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards ("Ind AS") specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the Directors of the Holding Company, as aforesaid.
9. In preparing the Consolidated Financial Statements, the respective Board of Directors of the company included in the Group are responsible for assessing the ability of each company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.
10. The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the Group.

Auditor's responsibilities for the audit of the Consolidated Financial Statements

11. Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.
12. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

kkc & associates llp

chartered accountants

(formerly Khimji Kunverji & Co LLP)

- 12.1. Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 12.2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to the Consolidated Financial Statements and the operating effectiveness of such controls.
- 12.3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- 12.4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- 12.5. Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 12.6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of financial statements of such entities included in the Consolidated Financial Statements of which we are the independent auditors. For the other entities included in the Consolidated Financial Statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.
13. We communicate with those charged with governance of the Holding Company and such other entities included in the Consolidated Financial Statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
14. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

15. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

16. We did not audit the financial statements of PMEA Solar system, subsidiary, a, whose financial statements reflect total assets (before Consolidation adjustment) of Rs. 10,739.95 Lakhs as at 31 March 2022, total revenues (before Consolidation adjustment) of Rs. 3,807.02 Lakhs and net cash flows amounting to Rs. 1373.33 Lakhs for the year ended on that date, as considered in the Consolidated Financial Statements. These financial statements have been audited by another auditor whose report dated October 22, 2022 under IGAAP and Special purpose audit report for fit for consolidation dated December 30, 2022 has been furnished to us by the management and our opinion on the Consolidated Financial Statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of section 143(3) of the Act, in so far as it relates to the aforesaid subsidiaries, is based solely on the reports of the other auditors.
17. The comparative financial information of the group for the year ended March 31, 2021 Balance Sheet as at March 31, 2021 included in these Ind AS consolidated financial statements, are based on the previously issued statutory consolidated financial statements audited by Phatak Joshi & Co Chartered Accountants (predecessor auditor), whose report dated November 5, 2021 expressed an unmodified opinion on those consolidated financial statements, as adjusted for the differences in the accounting principles adopted by the Company on transition to the Ind AS, which have been audited by us. Our opinion is not modified in respect of this matter.
18. Our opinion on the Consolidated Financial Statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

19. As required by section 143(3) of the Act, based on our audit and on the consideration of audit reports of the other auditors on separate financial statements of such subsidiaries, as were audited by other auditors and audit report of one of the joint auditors of the Parent, as noted in the 'Other Matters' paragraph, we report, to the extent applicable, that:
 - 19.1 We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements.
 - 19.2 In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidated Financial Statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
 - 19.3 The consolidated balance sheet, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and the consolidated statement of cash flow dealt with by this Report are in agreement with the

kkc & associates llp

chartered accountants

(formerly Khimji Kunverji & Co LLP)

relevant books of account maintained for the purpose of preparation of the Consolidated Financial Statements.

- 19.4 In our opinion, the aforesaid Consolidated Financial Statements comply with the Ind AS specified under Section 133 of the Act.
- 19.5 On the basis of the written representations received from the directors of the Holding Company as on 31 March 2022, taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary companies, incorporated in India, none of the directors of the Group companies, incorporated in India are disqualified as on 31 March 2022 from being appointed as a director in terms of Section 164(2) of the Act.
- 19.6 With respect to the adequacy of internal financial controls with reference to the Consolidated Financial Statements of the Holding Company, its subsidiary company, incorporated in India and the operating effectiveness of such controls, refer to our separate report in "Annexure B".
- 19.7 All the companies that are part of the Group are private Companies, Accordingly, the requirements prescribed under the provisions of Section 197 of the Act do not apply.
20. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of audit reports of the other auditors on separate financial statements of such subsidiary, as noted in the 'Other Matters' paragraph:
 - 20.1 The Consolidated Financial Statements disclose the impact of pending litigations as at 31 March 2022 on the consolidated financial position of the Group - Refer Note 44 to the consolidated financial statements.
 - 20.2 Provision has been made in the Consolidated Financial Statements, as required under the applicable law or Ind AS, for material foreseeable losses, if any, on long-term contracts including derivative contracts - Refer Note 50 to the Consolidated Financial Statements in respect of such items as it relates to the Group.
 - 20.3 There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company, and its subsidiary companies.
 - 20.4 The management has represented that no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company to or in any other person(s) or entity(is), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries. Based on reasonable audit procedures adopted by us, nothing has come to our notice that such representation contains any material misstatement.
 - 20.5 The management has represented that no funds have been received by the Holding Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide

any guarantee, security or the like on behalf of the Ultimate Beneficiaries. Based on reasonable audit procedures adopted by us, nothing has come to our notice that such representation contains any material misstatement.

- 20.6 In our opinion and according to the information and explanations given to us, the dividend declared and / or paid during the year the Group is in compliance with Section 123 of the Act.
21. With respect to the matters specified in paragraphs 3(xxi) and 4 of the Companies (Auditor's Report) Order, 2020 (the "CARO") issued by the Central Government in terms of Section 143(11) of the Act, to be included in the Auditor's report, according to the information and explanations given to us, and based on the CARO reports issued by us for the Company and based on our consideration of CARO report issued by the respective auditor of the Company's such subsidiaries as referred to in paragraph 16 above, we report that there the qualifications or adverse remarks in these CARO reports are mentioned in 'Annexure A' below.

Annexure B to the Independent Auditors' report on the Consolidated Financial Statements of the P. M. Electro-Auto Private Limited for the year ended 31 March 2022

Referred to in paragraph "19.6" under 'Report on Other Legal and Regulatory Requirements' section of our report of even date

Report on the Internal Financial Controls with reference to the Consolidated Financial Statements under Clause (i) of sub-section 3 of section 143 of the Companies Act, 2013.

Qualified Opinion

1. In conjunction with our audit of the Consolidated Financial Statements of P. M. Electro-Auto Private Limited as of and for the year ended 31 March 2022, we have audited the internal financial controls with reference to the Consolidated Financial Statements of P. M. Electro-Auto Private Limited ("the Holding Company") and its subsidiary companies, which are companies incorporated in India, as of that date.
2. According to the information and explanation given to us, the following material weakness has been identified in the operating effectiveness of the Holding Company's internal financial controls over financial reporting as at 31 March, 2022:
 - a) The Holding Company's internal financial controls over inventory management could not be verified since the Holding Company maintains its inventory records through manual records, which gets continuously updated with the movement of the stock and there are no controls present that enable the Holding Company to maintain an audit trail for the same for our verification. Based on the above, in the absence of demonstration of controls for Inventory management, we are unable to comment whether the controls for Inventory management were operating effectively or not.
3. A 'material weakness' is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual financial statements will not be prevented or detected on a timely basis.
4. The Holding Company has framed process document and risk control matrix for certain key processes relating to internal financial controls with reference to financial statements. In our opinion, considering the internal control with reference to financial statements, criteria established by the Holding Company and the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI and to justify existence and operative effectiveness of the said controls, the Holding Company need to strengthen the documentation of identified risk & controls to make it commensurate with the size of the Holding Company and nature of its business.
5. We have considered the material weakness identified and reported above in determining the nature, timing, and extent of audit tests applied in our audit of the 31 March 2022 financial statements of the Holding Company, and this material weakness does not affect our opinion on the Consolidated financial statements of the Company.

Management's responsibility for Internal Financial Controls

6. The respective Board of Directors of the Holding Company, its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial

kkc & associates llp

chartered accountants

(formerly Khimji Kunverji & Co LLP)

controls with reference to consolidated financial statements based on the internal controls over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's responsibility

7. Our responsibility is to express an opinion on the Holding Company, its subsidiaries, which are companies incorporated in India, internal financial controls with reference to the Consolidated Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing ("SA"), prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to the Consolidated Financial Statements. Those SAs and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to the Consolidated Financial Statements were established and maintained and if such controls operated effectively in all material respects.
8. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to the Consolidated Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to the Consolidated Financial Statements included obtaining an understanding of internal financial controls with reference to the Consolidated Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of the internal controls based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error.
9. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the 'Other Matters' paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to the Consolidated Financial Statements.

Meaning of Internal Financial Controls with reference to the Consolidated Financial Statements

10. A company's internal financial controls with reference to the Consolidated Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to the Consolidated Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

kkc & associates llp

chartered accountants

(formerly Khimji Kunverji & Co LLP)

Inherent Limitations of Internal Financial Controls with reference to the consolidated Financial Statements

11. Because of the inherent limitations of internal financial controls with reference to the Consolidated Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to the Consolidated Financial Statements to future periods are subject to the risk that the internal financial controls with reference to the Consolidated Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Other Matters

12. Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls system with reference to the Consolidated Financial Statements in so far as it relates to One subsidiary company, which are companies incorporated in India, is based on the corresponding reports of the auditors of such subsidiaries, associates and joint ventures incorporated in India.

Company is carrying out both domestic as well as exports sales. It also imports raw materials & capital goods.

Basis of preparation:

a. Basis of Preparation and Compliance with Ind As:

The Company has prepared the financial statements which comprise the Balance Sheet as at 31 March 2022, the statement of profit and loss, the statement of cash flows and the statement of changes in equity for the year ended 31 March 2022 and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "financial statements"). The financial statements are approved by the Board of Directors of the Company at their meeting held on 30th December, 2022.

Basis of Measurement:

The financial statements have been prepared on a going concern basis under the historical cost basis except for the following –

- Certain financial assets and liabilities have been measured at fair value (refer accounting policy regarding financial instruments); and
- Defined benefit plans – measured using actuarial valuation.

The financial statements have been prepared using the significant accounting policies and measurement basis summarised below. These were used throughout all periods presented in the financial statements, except where the Company has applied certain accounting policies and exemptions upon transition to Ind AS.

Functional and presentational currency:

The financial statements are prepared in Indian Rupees, which is the Company's functional and presentation currency. All financial information presented in Indian Rupees has been rounded to the nearest lacs with two decimals.

Operating Cycle:

Based on the nature of products/activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

Classification of Assets and Liabilities into Current/ Non- Current:

The Company has ascertained its operating cycle as twelve months for the purpose of Current/ Non-Current classification of its Assets and Liabilities.

For the purpose of Balance Sheet, an asset is classified as current if:

- a. It is expected to be realised, or is intended to be sold or consumed, in the normal operating cycle; or
- b. It is held primarily for the purpose of trading; or
- c. It is expected to realise the asset within twelve months after the reporting period; or
- d. The asset is a cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current if:

- a. It is expected to be settled in the normal operating cycle; or
- b. It is held primarily for the purpose of trading; or
- c. It is due to be settled within twelve months after the reporting period; or
- d. The Company does not have an unconditional right to defer the settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

b. Critical estimates and judgements:

The preparation of financial statements in conformity with Ind As requires management to make estimates, assumptions and exercise judgement in applying the accounting policies that affect the reported amount of assets, liabilities and disclosure of contingent liabilities at the date of financial statements and the reported amount of income and expenses during the year.

The management believes that these estimates are prudent and reasonable and are based upon the management's best knowledge of current events and actions. Actual results could differ from these estimates and differences between actual results and estimates are recognised in the periods in which the results are known or materialised.

Below is an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed.

- Useful lives of property, plant and equipment - Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by the management, based on those prescribed under Schedule II to the Act, at the time the asset is acquired and reviewed periodically, including at each financial year end.

- Defined benefit obligation - The cost of post-employment benefits is determined using actuarial valuations. The actuarial valuation involves making assumptions about discount

rates, future salary increases and mortality rates. Due to the long term nature of these plans, such estimates are subject to significant uncertainty. The assumptions used are disclosed in Note 45 to these financial statements.

- Fair value measurements – Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument.

- Impairment of assets – In assessing impairment, management estimates the recoverable amounts of each asset (in case of non-financial assets) based on expected future cash flows and uses an interest rate to discount them. Estimation uncertainty relates to assumptions about future cash flows and the determination of a suitable discount rate.

- Income tax - Significant judgments are involved in determining the provision for income tax, including the amount expected to be paid or recovered in connection with uncertain tax positions.

- Provisions - Provisions are recognised when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions (excluding retirement obligation and compensated expenses) are not discounted to its present value and are determined based on the best estimate required to settle obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates

c. Property, Plant and Equipment

Property, plant and equipment, capital work in progress are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalization criteria are met, directly attributable cost of bringing the asset to its working condition for the intended use and initial estimate of decommissioning, restoring and similar liabilities. Any trade discounts and rebates are deducted in arriving at the purchase price. Such cost includes the cost of replacing part of the plant and equipment. When significant parts of property, plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives.

Items of stores and spares that meet the definition of property, plant and equipment are capitalized at cost and depreciated over their useful life. Otherwise, such items are classified as inventories.

The company adjusts exchange differences arising on translation/ settlement of long-term foreign currency monetary items pertaining to the acquisition of a depreciable asset to the cost of the asset and depreciates the same over the remaining life of the asset.

Gains or losses arising from derecognition of property, plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

d. Depreciation on property, plant and equipment

Depreciation on property, plant and equipment is the systematic allocation of the depreciable amount over its useful life and is provided on a WDV basis over such useful lives as prescribed in Schedule II to the act or as per technical assessment conducted by the Management. Freehold land with indefinite life is not depreciated.

Depreciable amount of PPE is the cost of PPE less its estimated residual value. The useful life of PPE is the period over which PPE is expected to be available for use by the Company.

Depreciation method, useful life and residual value are reviewed periodically and, when necessary, revised. No further charge is provided in respect of assets that are fully written down but still in use.

e. Intangible assets and ammortisation:

Intangible assets acquired separately are measured on initial recognition at cost. Intangible assets are amortized on a WDV basis over the estimated useful economic life. The company uses a rebuttable presumption that the useful life of an intangible asset will not exceed 5 years from the date when the asset is available for use. If the persuasive evidence exists to the affect that useful life of an intangible asset exceeds five years, the company amortizes the intangible asset over the best estimate of its useful life.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

f. Impairment of property, plant and equipments and intangible assets

The carrying amount of the non- financial assets are reviewed at each balance sheet date if there is any indication based on internal/ external factors. An impairment loss is recognised whenever the carrying amount of an asset or cash generating unit exceeds its recoverable amount. The recoverable amount of the assets (or where applicable, that of the cash generating unit to which the asset belongs) is estimated to be higher of its net selling price and its value in use. Impairment loss is recognised in the statement of profit and loss.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the company estimates the asset's or cash-generating unit's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit and loss.

g. Leases

The Company assesses whether a contract contains a lease, at the inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the contract involves the use of identified asset;
- (ii) the Company has substantially all the economic benefits from the use of the asset through the period of lease and;
- (iii) the Company has the right to direct the use of the asset.

Where the Company is the lessee

The Company recognises a right-of-use asset ("ROU") and a lease liability at the lease commencement date. The ROU is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

Certain lease arrangements include the option to extend or terminate the lease before the end of the lease term. The right of-use assets and lease liabilities include these options when it is reasonably certain that the option will be exercised.

The ROU is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the company's incremental borrowing rate. Generally, the company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprises fixed payments, including in-substance fixed payments, amounts expected to be payable under a residual value guarantee and the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments is an optional renewal period if the company is reasonably certain to exercise an extension option.

The lease liability is subsequently measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the ROU or is recorded in Statement of Profit or Loss if the carrying amount of the ROU has been reduced to zero.

Lease Liabilities have been presented in 'Financial Liabilities' and the 'ROU' have been presented separately in the Balance Sheet. Lease payments have been classified as financing activities in the Statement of Cash Flows.

Where the company is the lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

The Company recognises lease payments received under operating leases as income on a straight-line basis over the lease term.

Short-term leases:

The Company has elected not to recognise ROU and lease liabilities for short term leases that have a lease term of 12 months or lower. The Company recognises the lease payments associated with these leases as an expense over the lease term. The related cash flows are classified as Operating activities in the Statement of Cash Flows.

h. Borrowing costs:

Borrowing cost includes interest and amortization of ancillary costs incurred in connection with the arrangement of borrowings.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

i. Government grants:

Government grants relate to income under State Investment Promotion scheme linked with GST payment and reimbursement of certain costs incurred, are recognised in the statement of Profit and Loss in the period in which they become receivable.

Government grants are not recognised until there is reasonable insurance that the Company will comply with the conditions attached to them and that the grants will be received.

j. Financial Instruments:

A Financial Instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial assets & financial liabilities are recognised when the Company becomes party to contractual provisions of the relevant instruments.

Initial recognition and measurement:

All financial assets and liabilities are initially recognised at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are adjusted to the fair value of the financial assets or financial liabilities on initial recognition. Transaction costs directly attributable to acquisition or issue of financial assets or financial liabilities at fair value through profit or loss are charged to the Statement of Profit and Loss over the tenure of the financial assets or financial liabilities.

Classification and Subsequent Measurement: Financial Assets

• Financial assets carried at Amortised Cost:

A financial asset shall be classified and measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. In case of financial assets classified and measured at amortised cost, any interest income, foreign exchange gains or losses and impairment are recognised in the Statement of Profit and Loss.

• **Financial assets at Fair Value through Other Comprehensive Income (FVTOCI):**

A financial asset shall be classified and measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

• **Financial assets at Fair Value through profit or loss (FVTPL):**

A financial asset shall be classified and measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through OCI.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

For financial assets at FVTPL, net gains or losses, including any interest or dividend income, are recognised in the Statement of Profit and Loss.

Classification and Subsequent Measurement: Financial Liabilities:

Financial liabilities are classified as either financial liabilities at FVTPL or 'other financial liabilities'

• **Financial liabilities at FVTPL:**

Financial liabilities are classified as at FVTPL when the financial liability is held for trading or are designated upon initial recognition at FVTPL. Gains or losses, including interest expenses on liabilities held for trading are recognised in the Statement of profit or loss.

• **Other Financial liabilities:**

Other Financial liabilities (including borrowings and trade and other payables) are subsequently measured at amortised cost using the effective interest method.

Impairment of Financial Assets:

In accordance with Ind AS 109, the Company uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL).

In case of trade receivables, Company applies 'simplified approach' which requires expected lifetime losses to be recognised from initial recognition of the receivables. The application of simplified approach does not require the Company to track changes in credit risk. The

Company calculates the expected credit losses on trade receivables using a provision matrix on the basis of its historical credit loss experience.

For other assets, the Company uses 12-month ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk lifetime ECL is used.

Derecognition of Financial Instruments:

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire or when it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109.

On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in OCI and accumulated in equity is recognised in the Statement of Profit and Loss.

A financial liability (or a part of a financial liability) is derecognised from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires. The difference between the carrying amount of the financial liability de-recognised and the consideration paid and payable is recognised in the Statement of Profit and Loss.

k. Fair Value Measurement:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

I. Inventories

Raw materials, components, stores and spares are valued at lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost of raw materials, components and stores and spares is determined on a weighted average basis.

Stores and spares which do not meet the definition of property, plant and equipment are accounted as inventories.

Work-in-progress and finished goods are valued at lower of cost and net realizable value. Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. Cost is determined on a weighted average basis.

Traded goods are valued at lower of cost and net realizable value. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on a weighted average basis.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

m. Revenue recognition:

i. Revenue from Contract with customers

Revenue is recognized on the basis of approved contracts regarding the transfer of goods or services to a customer for an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Revenue is measured at fair value of consideration received or receivable taking into account the amount of discounts, incentives, volume rebates and outgoing taxes on sales.

Revenues from management consulting are recognized over the period of the consulting as and when services are rendered. The company collects GST on behalf of the government and, therefore, it is not an economic benefit flowing to the company. Hence, it is excluded from revenue.

ii. Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis by reference to the principal outstanding and the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

iii. Dividend income from investments is recognized when the shareholder's right to receive dividend is established by the reporting date.

n. Foreign currency transactions:

Foreign currency transactions are recorded at exchange rate prevailing on the date of the transactions. Foreign currency denominated monetary assets and liabilities are restated into the functional currency using exchange rates prevailing on the Balance Sheet date. Gains and losses arising on settlement and restatement of foreign currency denominated monetary assets and liabilities are recognised in the statement of profit and loss. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined.

Non-Monetary items that are measured in terms of historical cost in a foreign currency are translated using exchange rate as at the date of initial transactions.

o. Earnings per share:

The Basic Earnings Per Share ("EPS") is computed by dividing the net profit / (loss) after tax for the year attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, net profit/loss after tax for the year attributable to the equity shareholders is divided by the weighted average number of equity shares outstanding during the year adjusted for the effects of all dilutive equity shares.

p. Employee benefit Expense:

Defined benefit plan:

The Company has defined benefit plan for post-employment benefits, for all employees in the form of Gratuity. The Company's liabilities under Payment of Gratuity Act are determined on the basis of independent actuarial valuation. The liability in respect of gratuity is calculated using the Projected Unit Credit Method and spread over the period during which the benefit is expected to be derived from employees' services.

Re-measurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the Balance Sheet with a charge or credit recognised in Other Comprehensive Income (OCI) in the period in which they occur. Remeasurement recognised in OCI is reflected immediately in retained earnings and will not be reclassified to Statement of Profit and Loss. Past service cost is recognised in the Statement of Profit and Loss in the period of a plan amendment. Interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset and is recognised in the Statement of Profit and Loss.

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds.

The defined benefit obligation recognised in the Balance Sheet represents the actual deficit or surplus in the Company's defined benefit plan. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

Defined contribution plan:

Payments to defined contribution plans are recognised as an expense when employees have rendered service entitling them to the contributions.

The eligible employees of the Company are entitled to receive benefits in respect of provident fund, for which both the employees and the Company make monthly contributions at a specified percentage of the covered employees' salary. The contributions as specified under the law are made to the Government Provident Fund monthly.

Short-term employee benefits:

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave in the period the related service is rendered. Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Other long – term employee benefits:

The Company's net obligation in respect of long – term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Remeasurement is recognised in Statement of Profit and Loss in the period in which they arise.

Entitlements to annual privilege leave are recognized when they accrue to employees. Privilege leave can be availed or encashed subject to a restriction on the maximum number of accumulation of leave. The Company determines the liability for such accumulated leaves using the projected unit credit method with actuarial valuations being carried out at each reporting date.

q. Income taxes:

The tax expense for the period comprises current and deferred tax. Tax is recognised in Statement of Profit and Loss, except to the extent that it relates to items recognised in the comprehensive income or in equity. In which case, the tax is also recognised in other comprehensive income or equity.

Current Tax:

Current Tax is measured on the basis of estimated taxable income for the current accounting period in accordance with the applicable tax rates and the provisions of the Income-tax Act, 1961 and other applicable tax laws.

Deferred Tax:

Deferred tax is recognised, on all temporary differences at the reporting date between the tax base of assets and liabilities and their carrying amounts for financial reporting purpose. Deferred tax liabilities and assets are measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting date.

Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and the liability on a net basis. Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities; and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. The carrying amount of Deferred tax liabilities and assets are reviewed at the end of each reporting period date and are reduced to the extent that it is no longer probable.

r. Segment Reporting- Identification of segments

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the company's Chief Operating Decision Maker ("CODM") to make decisions for which discrete financial information is available.

Based on the management approach as defined in Ind AS 108, the CODM evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments.

s. Earnings Per Share:

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

t. Provisions, Contingent Liabilities and Contingent Assets:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects current market assessment of time value of money and, where appropriate, the risks specific to the liability. Unwinding of the discount is recognised in the Statement of Profit and Loss as a finance cost. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate.

A present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

Claims against the Company where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities.

Contingent assets are not recognised in financial statements since this may result in the recognition of income that may never be realised. However, when the realization of income is virtually certain, then the related asset is not a contingent asset and is recognised. A contingent asset is disclosed, in financial statements, where an inflow of economic benefits is probable.

u. Cash and cash equivalents:-

Cash and cash equivalents comprise cash on hand and demand deposits, together with other current / short- term, highly liquid investments (original maturity of less than 3 months) that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

v. Derivative financial instruments and hedge accounting:

The Company enters into derivative financial contracts in the nature of forward currency contracts with external parties to hedge its foreign currency risks relating to foreign currency denominated financial liabilities/ financial assets measured at amortized cost. The Company formally establishes a hedge relationship between such forward currency contracts ('hedging instrument') and recognized financial liabilities/ financial assets ('hedged item') through a formal documentation at the inception of the hedge relationship in line with the Company's Risk Management objective and strategy.

The hedge relationship so designated is accounted for in accordance with the accounting principles prescribed for a fair value hedge under Ind AS 109, 'Financial Instruments'.

Recognition and measurement of fair value hedge:

Hedging instrument is initially recognized at fair value on the date on which a derivative contract is entered into and is subsequently measured at fair value at each reporting date. Gain or loss arising from changes in the fair value of hedging instrument is recognized in the Statement of Profit and Loss. Hedging instrument is recognized as a financial asset in the Balance Sheet if its fair value as at reporting date is positive as compared to carrying value and

as a financial liability if its fair value as at reporting date is negative as compared to carrying value.

Hedged item (recognized financial liability/financial asset) is initially recognized at fair value on the date of entering into contractual obligation and is subsequently measured at amortized cost. The hedging gain or loss on the hedged item is adjusted to the carrying value of the hedged item as per the effective interest method and the corresponding effect is recognized in the Statement of Profit and Loss.

w. Segment Reporting: Identification of Segments:

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the company's Chief Operating Decision Maker ("CODM") to make decisions for which discrete financial information is available. Based on the management approach as defined in Ind AS 108, the CODM evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments.

Notes to the Consolidated Financial Statements

Notes to the Consolidated Financial Statements

39 Capital Management (Ind AS 32)

The Company's objectives when managing capital are to:

- maximize shareholder value and provide benefits to other stakeholders and,
- maintain an optimal capital structure to reduce the cost of capital.

The capital structure of the Company consists of issued capital, share premium and all other equity reserves attributable to the equity holders. The company's risk management committee reviews the capital structure of the company. The Company monitors capital using debt-equity ratio, which is total debt divided by total equity.

Particulars	₹ in lakhs	
	As at 31-03-2022	As at 31-03-2021
Debt*	18,265.45	7,752.77
Equity	11,388.55	7,087.47
Debt to Equity	1.60	1.09

*Debt is defined as long-term borrowings, short-term borrowings and current maturities of long term borrowings, as described in notes 15 and 16. In addition the Company has financial covenants relating to the borrowing facilities that it has taken from the lenders like interest coverage service ratio, Debt to EBITDA, etc. which is maintained by the Company.

41 Financial Risk Management Objectives (Ind AS 107)

The Company's principal financial liabilities, other than derivatives, comprises of borrowings, trade and other payables. These are primarily represents liabilities from operations and financial liabilities to finance the company's operations. The company's principal financial assets, other than derivatives include trade and other receivables, investments and cash and cash equivalents that derive directly from its operations.

The Company's activities expose it to market risk, liquidity risk and credit risk. The Company's overall risk management focuses on the unpredictability of financial markets and seek to minimize potential adverse effects on the financial performance of the Company. The company uses derivative financial instruments, such as foreign exchange forward contracts that are entered to hedge foreign currency risk exposure. Derivatives are used exclusively for hedging purposes and not as trading or speculative instruments.

The sources of risks which the company is exposed to and their management is given below:

Risk	Exposure Arising From	Measurement	Management
A. Market Risk			
1) Foreign Exchange Risk	Committed commercial transaction Financial instruments not denominated in INR	Cash Flow Forecasting Sensitivity Analysis	Forward foreign exchange contracts in case of Holding Company. However in case of Subsidiary the same is not in place
2) Interest Rate	Long Term Borrowings at variable rates	Sensitivity Analysis, Interest rate movements	Active monitoring of interest rates volatility
3) Commodity Price Risk	Movement in prices of commodities	Sensitivity Analysis, Commodity price tracking	Active inventory management, Sales Price linked to purchase price
B. Credit Risk	Trade receivables, investments, Derivative financial instruments, loans	Aging analysis, Credit Rating	Credit limit and credit worthiness monitoring, Criteria based approval process
C. Liquidity Risks	Borrowings and Other Liabilities and Liquid investments	Rolling cash flow forecasts	Monitoring of credit lines and borrowing limits

The Company has policies, procedures and authorization matrix for utilization of funds, which ensures deployment of fund in prudent manner and the availability of funding through an adequate amount of credit facilities to meet obligation when due. Compliance of these policies and procedures are reviewed by Internal auditors on periodical basis.

A. Market Risk

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, commodity prices, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and borrowings.

1) Foreign Currency Risk

Foreign currency risk is the risk of impact related to fair value or future cash flows of an exposure in foreign currency, which fluctuate due to changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to import of raw materials, capital expenditure and exports. When a derivative is entered for the purpose of being a hedge, the Company negotiates the terms of those derivatives to match the terms of the hedged exposure.

Outstanding foreign currency exposure	₹ in lakhs	
	As at 31-03-2022	As at 31-03-2021
Financial Liabilities		
Trade Payables		
USD	4.20	-
Financial Assets		
Trade Receivable		
USD	18.98	10.57

Foreign Currency sensitivity on unhedged exposure

Gain / (Loss) in rupees due to increase in foreign exchange rates by 100 bps

Particular	₹ in lakhs	
	As at 31-03-2022	As at 31-03-2021
USD	2.21	-

2) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rate. In order to optimize the Company's position with regards to interest income and interest expenses and to manage the interest rate risk, treasury performs a comprehensive corporate interest rate risk management by balancing the proportion of fixed rate and floating rate financial instrument in its portfolio. The Company is not exposed to significant interest rate risk as at the respective reporting dates.

Interest Rate exposure

Particulars	₹ in lakhs	
	Total Borrowing	Floating Rate Borrowing
INR	18,265.45	6,658.10
Total as at March 31, 2022	18,265.46	6,658.10
INR	7,752.77	3,101.33
Total as at March 31, 2021	7,752.77	3,101.33

Interest rate sensitivities for unhedged exposure

Gain / (Loss) due to increase in interest rates by 100 bps

Particulars	₹ in lakhs	
	As at 31-03-2022	As at 31-03-2021
INR	77.30	31.01

Note: If the rate is decreased by 100 bps profit will increase by an equal amount.

Interest rate sensitivity has been calculated assuming the borrowings are outstanding at the reporting date have been outstanding for the entire reporting period.

Forward exchange Contracts:

(a) Derivatives for hedging currency and interest rates, outstanding are as under:

Particulars	Purpose	Currency	₹ in lakhs	
			As at 31-03-2022	As at 31-03-2021
Forward Contracts	Exports	USD (in Lakhs)	568.76	166.03

3) Commodity Price Risk

Commodity price risk for the Company is mainly related to fluctuations in raw material prices linked to various external factors, which can affect the production cost of the Company. To manage this risk, the Company monitors factors affecting prices, identifies new sources of supply of raw material, monitors inventory level, etc. Additionally, processes and policies related to such risks are reviewed and controlled by senior management and monitored by the procurement department.

B. Credit Risk Management

Credit risk arises when a customer or counterparty does not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing / investing activities, including deposits with banks, foreign exchange transactions and financial guarantees. The Company has no significant concentration of credit risk with any counterparty.

Trade Receivable

Trade receivables are consisting of a large number of customers / distributors. The Company has credit evaluation policy for each customer / distributor and based on the evaluation credit limit of each customer / distributor is defined. The Company's marketing team are responsible for monitoring receivable on periodical basis.

Total trade receivable as on March 31, 2022 is ₹. 5430.74 Lakhs (March 31, 2021 ₹. 5038.90 Lakhs.)

As per simplified approach, the Company makes provision of expected credit losses on trade receivables using a provision matrix to mitigate the risk of default payments and makes appropriate provision at each reporting date wherever outstanding is for longer period and involves higher risk. The policy for creating provision for credit losses on trade receivables is as per following provision matrix:-

Particulars	Loss Allowance Provision
0 to Six Months	Nil
Above Six Months and upto Twelve Months	5%
Above twelve Months and upto Eighteen Months	25%
Above eighteen months and upto Thirty six Months	50%
Above Thirty six Months	100%

Particulars	₹ in lakhs	
	As at 31-03-2022	As at 31-03-2021
Opening Provision	197.44	110.18
Add: Provision during the year	0.26	27.46
Less: Utilised during the year	-	-
Closing Provision	197.91	137.64

Investments, Derivative Instruments, Cash and Cash Equivalent and Bank Deposits:

Credit Risk on cash and cash equivalent, deposits with the banks / Financial institutions is generally low as the said deposits have been made with the banks / financial institutions who have been assigned high credit rating by international and domestic rating agencies.

Credit Risk on Derivative Instruments are generally low as group enters into the Derivative Contracts with the reputed Banks and Financial Institutions.

B. Liquidity Risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at reasonable price. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of credit facilities to meet obligations when due. The Company's treasury team is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the Company's liquidity position through rolling forecasts on the basis of expected cash flows.

The table below provides details regarding the remaining contractual maturities of financial liabilities and investments held for managing the risk at the reporting date based on contractual undiscounted payments.

As at March 31, 2022	₹ in lakhs			Total

41A Classification of Financial Assets and Liabilities (Ind AS 107)

Particulars	₹ in lakhs	
	As at 31-03-2022	As at 31-03-2021
Financial Assets at amortised cost		
Trade receivable	5,490.74	5,038.90
Loans	243.03	184.52
Investments		
Cash and cash equivalents	3,915.43	609.89
Other Balances with Banks	4,517.96	1,396.44
Other Financial Assets	1,869.31	1,078.37
Financial Assets at fair value through profit or loss		
Investment	500.84	0.71
Derivative Asset	494.07	100.12
Financial Assets at fair value through other comprehensive income		
Investments	-	-
Total	17,091.41	9,002.95
Financial Liabilities at amortised cost		
Term Loans from Banks (Including current maturities of long term borrowing)	5,719.21	2,202.27
Working Capital loans/ Cash credits	11,469.56	4,861.66
Trade Payable	7,706.22	7,750.03
Other Financial Liabilities	3,148.21	2,758.81
Fair Value Hedging Instruments		
Derivative Liability	-	-
Total	28,043.01	17,570.76

42 Fair Value measurements (Ind AS 113)

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in an orderly transaction in the principal (or most advantageous) market at measurement date under the current market conditions regardless of whether that price is directly observable or estimated using other valuation techniques. The Company has established the following fair value hierarchy that categorises the values into 3 levels. The inputs to valuation techniques used to measure fair value of financial instruments are:

Particulars	Fair Value	
	As at 31-03-2022	As at 31-03-2021
Financial Assets at fair value through profit or loss		
Investments-Level 1	-	-
Investments-Level 2	500.84	0.71
Fair Value hedging instruments	-	-
Derivative liability/(Assets) - level 2	-	-
Total	500.84	0.71

The management assessed that cash and bank balances, trade receivables, trade payables, cash credits and other financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The following methods and assumptions were used to estimate the fair values:

- The fair values of the quoted investments are based on market price/net asset value at the reporting date.
- The fair value of unquoted investments is based on closing Net Assets Value.
- The fair value of forward foreign exchange contracts is calculated as the present value determined using forward exchange rates and interest rate curve of the respective currencies.
- The fair value of currency swap is calculated as the present value determined using forward exchange rates, currency basis spreads between the respective currencies, interest rate curves and an appropriate discount factor.
- The fair value of the remaining financial instruments is determined using discounted cash flow analysis. The discount rates used is based on management estimates.

42A Revenue (Ind AS 115)

A) The company is engaged in manufacturing and selling steel based products. Sales are made at a point in time and revenue from contract with customer is recognised when goods are dispatched and the control over the goods sold is transferred to customers. The Company does not expect to have any contracts where the period between the transfer of goods and payment by customer exceeds one year. Hence, the Company does not adjust revenue for the time value of money.

B) Revenue recognised from Contract Liability (Advances from Customers):

Particulars	₹ in lakhs	
	As at 31-03-2022	As at 31-03-2021
Closing Contract liability	1,020.12	281.47

C) Reconciliation of revenue as per contract price and as recognised in statement of profit and loss:

Cash & Cash equivalents as at April 1, 2020	2,593.22	(2,438.81)	154.41
Cash & Cash equivalents as at March 31, 2021	7,552.99	(6,950.21)	602.78

Notes to the Reconciliation of equity as at April 1, 2020 and March 31, 2021 and Total Comprehensive Income for the year ended March 31, 2021:

A. On account of changes in accounting policies

A1. Fair valuation of Security Deposits

Interest free deposits have been fair valued and are discounted using an appropriate current market rate. The difference between the nominal value and the fair value of the deposit under the lease is considered as Prepaid Rent, Which is unwinded on a straight line basis over the period of the lease. The company also recognizes interest expenses using the discounting rate, over the life of the deposit. These adjustments are reflected in retained earnings as at the date of transition and subsequently in the statement of profit and loss.

A2. Allowances for Credit losses

For Provision of Credit losses on Trade Receivables, the company has adopted Simplified Approach where by provision of expected credit losses is made using a provision matrix to mitigate the risk of default payments.

A3. Deferred Tax

IGAAP requires deferred tax accounting using the income statement approach, which focuses on differences between taxable profits and accounting profits for the period. Ind AS 12 requires entities to account for deferred taxes using the balance sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base. The application of Ind AS 12 approach has resulted in recognition of deferred tax on new temporary differences which was not required under IGAAP.

In addition, the various transitional adjustments lead to temporary differences. According to the accounting policies, the Company has to account for such differences. Deferred Tax adjustments are recognised in correlation to the underlying transaction either in retained earnings or profit and loss respectively.

A4. Right of Use Assets

The Company recognizes a right-of-use asset ("ROU") and a lease liability at the lease commencement date. The ROU is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

A5. Current Tax

The transitional adjustments have led to differences in Provision for Tax. According to the accounting policies, the Company has to account for such differences. Current Tax adjustments are recognised in correlation to the underlying transaction in Profit and Loss Statement.

A6. Unamortised Processing fees on loan

Under Previous GAAP, processing fees on loan was charged entirely to Statement of Profit and Loss. However, under Ind AS, the same has been accounted as per Ind AS 109.

A7. Straightlining of Rental Income

Under Previous GAAP, rental Income was recognised in the financials at the amount actually receivable. However, under Ind AS, future incrementals in rental income were recognised on straight line basis over the period of the lease and a lease equalisation reserve is created for the differential amount.

B. On account of Errors

B1. Inventories

Errors were observed in inventory sold as free sample which were now rectified.

B2. Sales and Trade Receivables

Errors were observed in revenue recognition w.r.t to cut-off which were now rectified.

B3. Defined Benefit Liabilities

Errors were observed in recognition and measurement of post employment defined benefits plan which were now rectified.

B4. Mark to Market of derivatives

Errors were observed in recognition and measurement of forward contracts which were now rectified.

B5. Bonus Provision

Errors were observed in recognition and measurement of bonus payable to workers which were now rectified.

B6. Interest on MSME

Errors were observed in recognition and measurement of interest on msme dues payable to parties which were now rectified.

B7. PSI Incentive

Errors were observed in recognition of PSI incentive which were now rectified.

B8. Reversal of Excess Income Tax Provision

Errors were observed in reversal of income tax provision which were now rectified.

Notes to the Consolidated Financial Statements

44 **Contingent Liability and Commitments not provided for in respect of:**i) **Claims against the group not acknowledged as debt**

Closing Amount Recognised in OCI outside P&L	(10.49)	0.06

vi) Maturity Profile of Defined Benefit Obligation

₹ in lakhs

Particulars	As at March,22	As at March,2021
Within next 12 month	15,76,033	13,74,681
Between 1 and 5 year	43,70,277	35,70,966
Between 5 and 10 year	98,95,172	80,18,648
10 Year and above	5,48,17,940	4,74,98,995

vii) Major Categories of Plan Assets as Percentage of Total Plan

₹ in lakhs

Particulars	As at March,22	Rate	As at March,2021	Rate
Insurer managed Funds	25.89	100%	24.50	100%
Total	25.89		24.50	

viii) Expected rate of return on Plan Assets is based on expectation of the average long term rate of return expected on investments of the fund during the estimated term of the obligations.

ix) Principal actuarial assumptions at the Balance Sheet date

₹ in lakhs

Particulars	As at March,22	As at March,2021
Discount Rate	7.20%	6.80%
Salary Escalation Rate	8.00%	8.00%
Attrition Rate(Average Rate of 2 Age Groups)	7.50%	7.50%

x) Amounts recognised to Gratuity:

₹ in lakhs

Particulars	As at March,22	As at March,2021
Defined Benefit Obligation	258.86	227.26
Plan Assets	25.89	24.50
Surplus / (Deficit)	(232.96)	(202.76)

xi) Expected Contribution to the Funds in the next year:

₹ in lakhs

Particulars	2022-23
Gratuity	10

xii) Sensitivity Analysis for significant assumption

Particulars	As at March,22	As at March,2021
0.5% Increase in discount rate	-5.42%	-5.64%
0.5% decrease in discount rate	5.90%	6.15%
0.5% Increase in salary escalation clause	5.83%	6.05%
0.5% Decrease in salary escalation clause	-5.40%	-5.60%

* These Sensitivities have been calculated to show the movement in defined benefit obligation in isolation and assuming there are no other changes in market conditions at the accounting date. There have been no changes from the previous periods in the methods and assumptions used in preparing the sensitivity analysis.

xiii) The estimates of future salary increases considered in actuarial valuation takes into account inflation, seniority, promotion and other relevant factors

xiv) Asset Liability matching strategy:

The money contributed by the Company to the Gratuity fund to finance the liabilities of the plan has to be invested for funded gratuity plan. The trustees of the such plan have outsourced the investment management of the fund to an Insurance Company. The Insurance Company in turn manages these funds as per the mandate provided to them by the trustees and the asset allocation which is within the permissible limits prescribed in the insurance regulation. Due to the restriction in the type of investment that can be held by the fund, it is not possible to explicitly follow an asset liability matching strategy. There is no compulsion on the part of the Company to fully prefund the liability of the Plan.
