Chartered Accountants (formerly Khimji Kunverji & Co LLP)

### Independent Auditor's Report

To
The Members of
PMEA Solar Tech Solutions Private Limited
(Formerly known as P.M. Electro Auto Private Limited)

### Report on the audit of the Consolidated Financial Statements

### Opinion

- 1. We have audited the accompanying consolidated Ind AS financial statements of PMEA Solar Tech Solutions Private Limited ('the Holding Company' or 'the parent' or 'the Company') (Formerly known as P.M. Electro Auto Private Limited) and its subsidiaries (the parent and its subsidiaries together referred to as 'the Group') the which comprise the consolidated balance sheet as at 31 March 2024, and the consolidated statement of profit and loss (including other comprehensive income), consolidated statement of changes in equity and consolidated statement of cash flows for the year ended on that date, and notes to the consolidated financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as 'the Consolidated Financial Statement')
- In our opinion and to the best of our information and according to the explanations given to us and in case of the entity referred to in paragraph 16 below, based on consideration of management provided statement, the aforesaid Consolidated Financial Statements give the information required by the Companies Act 2013, ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, as at 31<sup>st</sup> March 2024, and its consolidated profit and other comprehensive income, consolidated changes in the equity and its consolidated cash flows for the year ended.

### **Basis for Opinion**

3. We conducted our audit in accordance with the Standards on Auditing ('SAs') specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group, in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India('ICAI') together with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the Act, and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained along with the consideration of audit reports of the other auditors referred to in the 'Other Matter' paragraph below is sufficient and appropriate to provide a basis for our opinion on the Consolidated Financial Statements.

### **Key Audit Matters**

4. Key audit matters are those matters that, in our professional judgement, were of the most significance in our audit of the Financial Statements of the current year. We have determined that there is no key audit matter to be communicated in our report.

Chartered Accountants (formerly Khimji Kunverji & Co LLP)

### Other Information

- 5. The Holding Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Holding Company's annual report but does not include the consolidated financial statements and our auditor's report thereon. The Other Information is expected to be made available to us after the date of this auditor's report.
- 6. Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- 7. In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. When we read the holding company annual report, if we conclude that there is material misstatement therein, we are required to report that fact. We have nothing to report in this regard.

# Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

- The Holding Company's Board of Directors are responsible for the preparation and presentation of these Consolidated Financial Statements, that give a true and fair view of the consolidated state of affairs, consolidated profit and loss and other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards ('Ind AS') specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the Directors of the Holding Company, as aforesaid.
- 9. In preparing the Consolidated Financial Statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
- 10. The Board of Directors is also responsible for overseeing the Company's financial reporting process.

### Auditor's responsibilities for the audit of the Consolidated Financial Statements

11. Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of

Chartered Accountants (formerly Khimji Kunverji & Co LLP)

assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

- 12. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We are also:
  - 12.1. Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
  - 12.2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the Under section 143(3)(i) the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to Consolidated Financial Statements in place and the operating effectiveness of such controls.
  - 12.3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
  - 12.4. Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
  - 12.5. Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
  - 12.6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of financial statements of such entities included in the Consolidated Financial Statements of which we are the independent auditors.
- 13. We communicate with those charged with governance of the Holding Company and such other entities included in the Consolidated Financial Statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Chartered Accountants (formerly Khimji Kunverji & Co LLP)

- 14. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
- 15. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **Other Matters**

- 16. We did not audit the financial statements of one subsidiary, whose financial statements reflect total assets of Rs. 3660.69 lakhs as at 31 March 2024, total revenues of Rs. 3,947.47 lakhs and net cash flows amounting to Rs. 19.200 lakhs for the year ended on that date, as considered in the Consolidated Financial Statements. These financial statements have been audited by another auditor whose report have been furnished to us by the Management and our opinion on the Consolidated Financial Statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiary, and our report in terms of section 143(3) of the Act, in so far as it relates to the aforesaid subsidiary, is based solely on the report of such other auditor.
- 17. The financial statements of one subsidiary, whose financial statements reflect total assets of Rs.2742.25 lakhs as at 31 March 2024, total revenues of Rs. 919.31 lakhs and net cash flows amounting to Rs. (360.76) lakhs for the year ended on that date, as considered in the Consolidated Financial Statements have not been audited either by us or by any other auditor. This financial statement is unaudited and has been reviewed by another auditor and has been furnished to us by the Management after converting the same into the reporting currency and our opinion on the Consolidated Financial Statements, in so far as it relates to the amounts and disclosures included in respect of this subsidiary and our report in terms of section 143(3) of the Act in so far as it relates to the aforesaid subsidiary, is based solely on such unaudited financial statement. In our opinion and according to the information and explanations given to us by the Management, these financial statements are not material to the Group.
- 18. Our opinion on the Consolidated Financial Statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to the financial statements/ financial information certified by the Management.

### Report on Other Legal and Regulatory Requirements

- 19. As required by the Companies (Auditor's Report) order, 2020 ("the Order") issued by the Central Government of India in terms of section 143(11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraph 3 and 4 of the order, to the extent applicable.
- 20. As required by section 143(3) of the Act, based on our audit and on the consideration of management provided financial statement of subsidiary, as noted in the 'Other Matters' paragraph, we report, to the extent applicable, that:

Chartered Accountants

Sunshine Tower, Level 19, Senapati Bapat Marg, Elphinstone Road, Mumbai 400013, India T: +91 22 6143 7333 E: info@kkcllp.in W: www.kkcllp.in LLPIN: AAP-2267

Chartered Accountants (formerly Khimji Kunverji & Co LLP)

- 20.1. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements.
- 20.2. In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidated Financial Statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
- 20.3. The consolidated balance sheet, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and the consolidated statement of cash flow dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the Consolidated Financial Statements.
- 20.4. In our opinion, the aforesaid Consolidated Financial Statements comply with the Ind AS specified under Section 133 of the Act.
- 20.5. On the basis of the written representations received from the directors of the Holding Company as on 31 March 2024, taken on record by the Board of Directors of the Holding Company, none of the directors of the Group companies, incorporated in India are disqualified as on 31 March 2024 from being appointed as a director in terms of Section 164(2) of the Act.
- 20.6. With respect to the adequacy of internal financial controls with reference to the Consolidated Financial Statements of the Holding Company, its subsidiary company, incorporated in India and the operating effectiveness of such controls, refer to our separate report in 'Annexure B'.
- 20.7. All the companies that are part of the group are private companies, accordingly, the requirements prescribed under the provisions of section 197 of the act do not apply.
- 21. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us, as noted in the 'Other Matters' paragraph:
  - 21.1. The Consolidated Financial Statements disclose the impact of pending litigations as at 31 March 2024 on the consolidated financial position of the Group, Refer Note 48 to the consolidated financial statements.
  - 21.2. Provision has been made in the Consolidated Financial Statements, as required under the applicable law or Ind AS, for material foreseeable losses, if any, on long-term contracts including derivative contracts Refer Note 48 to the Consolidated Financial Statements in respect of such items as it relates to the Group.
  - 21.3. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company, and its subsidiary companies incorporated in India.
  - 21.4. The respective managements of the Holding Company, its subsidiaries, incorporated in India whose financial statements have been audited under the Act have represented to us, to best of their knowledge and belief, that no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the

Chartered Accountants (formerly Khimji Kunverji & Co LLP)

Holding Company to or in any other person(s) or entity(ies), including foreign entities ('Intermediaries'), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company or any of such subsidiaries, ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- 21.5. The respective managements of the Holding Company, its subsidiaries, which are companies incorporated in India whose financial statements have been audited under the Act have represented to us, to best of their knowledge and belief, that no funds have been received by the Holding Company or any of such subsidiaries, from any person(s) or entity(ies), including foreign entities ('Funding Parties'), with the understanding, whether recorded in writing or otherwise, that the Holding Company or any of such subsidiaries, shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- 21.6. Based on such audit procedures, that has been considered reasonable and appropriate in the circumstances, performed by us, nothing has come to our notice that has caused us to believe that the representation under paras 21.4 and 21.5 contain any material misstatement.
- 21.7. In our opinion and according to the information and explanations given to us, there has been no declaration of Dividend and / or paid during the year. Accordingly, section 123 of the Act is not applicable.
- 21.8. Based on our examination which included test checks, the company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) was not enabled at the database level to log any direct data changes. For the accounting software for which the audit trail feature is enabled, the audit trail facility has been operating throughout the year for all the relevant transactions recorded in the software and we did not come across any instance of audit trail features being tampered with during the course of the audit.

As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from 1 April 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is not applicable for the financial year ended 31 March 2024

Annexure B to the Independent Auditors' report on the Consolidated Financial Statements of the PMEA Solar Tech Solutions Private Limited for the year ended 31 March 2024

Referred to in paragraph "20.6" under 'Report on Other Legal and Regulatory Requirements' section of our report of even date

Report on the Internal Financial Controls with reference to the Consolidated Financial Statements under Clause (i) of sub-section 3 of section 143 of the Companies Act, 2013.

### **Opinion**

- We have audited the internal financial controls with reference to the Consolidated Financial Statements of PMEA Solar Tech Solutions Private Limited ("the Company") (Formerly known as P.M. Electro Auto Private Limited) as at 31 March 2024 in conjunction with our audit of the Consolidated Financial Statements of the Company for the year ended on that date.
- 2. According to the information and explanation given to us, the Holding and Subsidiary company has framed process document and risk control matrix for certain key processes relating to internal financial controls with reference to financial statements. In our opinion, considering the internal control with reference to the consolidated financial statements, criteria established by the Holding and Subsidiary Company and the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Control Over Financial Reporting issued by the ICAI and to justify existence and operating effectiveness of the said controls, the company need to strengthen the documentation of identified risk & controls to make it commensurate with the size of the company and nature of its business.

### Management's responsibility for Internal Financial Controls

3. The respective Board of Directors of the Holding Company, its subsidiary company, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls with reference to consolidated financial statements based on the internal controls over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

### Auditor's responsibility

4. Our responsibility is to express an opinion on the Holding Company, its subsidiaries, which are companies incorporated in India, internal financial controls with reference to the Consolidated Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing ("SA"), prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to the Consolidated Financial Statements. Those SAs and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to the Consolidated Financial Statements were established and maintained and if such controls operated effectively in all material respects.

Chartered Accountants (formerly Khimji Kunverji & Co LLP)

- 5. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to the Consolidated Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to the Consolidated Financial Statements included obtaining an understanding of internal financial controls with reference to the Consolidated Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of the internal controls based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error.
- 6. We believe that the audit evidence we have obtained, and the audit evidence obtained by the other auditors in terms of their reports referred to in the 'Other Matters' paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to the Consolidated Financial Statements.

### Meaning of Internal Financial Controls with reference to the Consolidated Financial Statements

7. A company's internal financial controls with reference to the Consolidated Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to the Consolidated Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Chartered Accountants (formerly Khimji Kunverji & Co LLP)

# Inherent Limitations of Internal Financial Controls with reference to the Consolidated Financial Statements

8. Because of the inherent limitations of internal financial controls with reference to the Consolidated Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to the Consolidated Financial Statements to future periods are subject to the risk that the internal financial controls with reference to the Consolidated Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

# PMEA Solar Tech Solutions Private Limited (Formerly known as P.M. Electro-Auto Private Limited)

### CIN NO: U29219MH2006PTC161285

PMEA Solar Tech Solutions Private Limited (Formerly known as P.M. Electro-Auto Private Limited) (the company) is a Private company domiciled in India. The company is engaged in the manufacturing and selling of steel based products. The company is having 5 types of business verticles such as Furniture, Automobile Components, Lighting solutions & panel boards, Switch Boards & Control Panels and Solar mounting structures. The PMEA group is in existence since 1992 & It was formed as private limited company in 2006.

Company has wholly owned subsidiary company which is engaged in manufactring of Torque Tubes which is a critical part of solar mounting structures. At the group level the company operates through 11 manufacturing set ups in Maharashtra & Gujarat.

Company is carrying out both domestic as well as exports sales. It also imports raw materials & capital goods. Having registered office address at A-406, Western Edge II, cable corporation compund, Borivali East, Mumbai-400066.

### 2. Material Accounting Policies

These Consolidated Financial statement (hereinafter refered as "Financial Statement") are prepared in accordance with Indian Accounting Standards ("Ind As") as per the companies (Indian Accounting Standards) Rules, 2015 and the presentation requirements of Division II of Schedule III notified under section 133 of the Companies Act, 2013 ("the Act"), amendments thereto and other releavant provision of the act.

The financial statements were authorised for issue by the Board of Directors of the Company at their meeting held on 1st July, 2024.

### B. Basis of preparation

The Company has prepared the financial statements which comprise the Balance Sheet as at 31 March 2024, the statement of profit and loss, the statement of cash flows and the statement of changes in equity for the year ended 31 March 2024 and a summary of the material accounting policies and other explanatory information (hereinafter referred to as "financial statements").

### Basis of Measurement:

The financial statements have been prepared on a going concern basis under the historical cost basis except for the following –

- Certain financial assets and liabilities have been measured at fair value (refer accounting policy regarding financial instruments); and
- Employee's Defined Benefit Plan as per acturial valuations
- Derivative Financial Instrument measured at fair value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions, regardless of whether that price is directly observable or estimated using another valuation technique. In determining the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date

The financial statements are prepared in Indian Rupees, which is the Company's functional and presentation currency. All financial information presented in Indian Rupees has been rounded to the nearest lacs with two decimals.

### Classification of Assets and Liabilities into Current/ Non- Current:

The Company has ascertained its operating cycle as twelve months for the purpose of Current/ Non-Current classification of its Assets and Liabilities. For the purpose of Balance Sheet, an asset is classified as current if:

a)It is expected to be realised, or is intended to be sold or consumed, in the normal operating cycle; or

b)It is held primarily for the purpose of trading; or

c)It is expected to realise the asset within twelve months after the reporting period; or

d) The asset is a cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current if:

a) It is expected to be settled in the normal operating cycle; or

b)It is held primarily for the purpose of trading; or

c)It is due to be settled within twelve months after the reporting period; or

d) The Company does not have an unconditional right to defer the settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification.

All other liabilities are classified as non-current.

Deferred Tax assets and liabilities are classified as non-current only

### d.) Depreciation

Depreciation on property, plant and equipment is the systematic allocation of the depreciable amount over its useful life and is provided on a WDV basis over such useful lives as prescribed in Schedule II to the act or as per technical assessment conducted by the Management. Freehold land with indefinite life is not depreciated.

Depreciable amount for PPE is the cost of PPE less its estimated residual value. The useful life of PPE is the period over which PPE is expected to be available for use by

Depreciation method, useful life and residual value are reviewed periodically and, when necessary, revised. No further charge is provided in respect of assets that are fully written down but still in use.

In case following class of PPE, the company uses different useful lives than those prescribed in Schedule II to the Act. The useful lives have been assessed based on technical advice.

Particular	Life
Dies & Tools (Amortised)	3 years

Depreciation on additions is provided on a pro-rata basis from the month of installation or acquisition and in case of Projects from the date of commencement of commercial production. Depreciation on deductions/disposals is provided on a pro-rata basis up to the month preceding the month of deduction/disposal.

### e.) Intangible assets and ammortisation:

Intangible assets acquired separately are measured on initial recognition at cost.

Intangible assets are amortized on a WDV basis over the estimated useful economic life. The company uses a rebuttable presumption that the useful life of an intangible asset will not exceed 5 years from the date when the asset is available for use. If the persuasive evidence exists to the affect that useful life of an intangible asset exceeds five years, the company amortizes the intangible asset over the best estimate of its useful life.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

### f.) Impairment of Non-Financial Assets

At the end of each reporting period, the Company reviews the carrying amounts of non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in Statement of Profit and Loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in the Statement of Profit and Loss.

### f.) Impairment of property, plant and equipments and intangible assets

The carrying amount of the non-financial assets are reviewed at each balance sheet date if there is any indication based on internal/external factors. An impairment loss is recognised whenever the carrying amount of an asset or cash generating unit exceeds its recoverable amount. The recoverable amount of the assets (or where applicable, that of the cash generating unit to which the asset belongs) is estimated to be higher of its net selling price and its value in use. Impairment loss is recognised in the statement of profit and loss.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the company estimates the asset's or cash-generating unit's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit and loss.

Classification and Subsequent Measurement: Financial Assets

The Company classifies financial assets as subsequently measured at amortised cost, Fair Value through Other Comprehensive Income ("FVOCI") or Fair Value through Profit or Loss ("FVTPL") on the basis of following:

i) the entity's business model for managing the financial assets and ii) the contractual cash flow characteristics of the financial asset.

A financial asset shall be classified and measured at amortised cost if both of the following conditions are met:

- 1) the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- 2) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

In case of financial assets classified and measured at amortised cost, any interest income, foreign exchange gains or losses and impairment are recognised in the Statement of Profit and Loss.

g.) Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the instruments.

Initial recognition and measurement:

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss and ancillary costs related to borrowings) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are charged to the Statement of Profit and Loss over the tenure of the financial assets or financial liabilities. However, trade receivables that do not contain a significant financing component are measured at transaction price (net of variable consideration).

Classification and Subsequent Measurement: Financial Assets

The Company classifies financial assets as subsequently measured at amortised cost, Fair Value through Other Comprehensive Income ("FVOCI") or Fair Value through Profit or Loss ("FVTPL") on the basis of following:

- i) the entity's business model for managing the financial assets and
- ii) the contractual cash flow characteristics of the financial asset.

### Amortised Cost:

A financial asset shall be classified and measured at amortised cost if both of the following conditions are met:

- 1) the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- 2) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount

In case of financial assets classified and measured at amortised cost, any interest income, foreign exchange gains or losses and impairment are recognised in the Statement of Profit and Loss.

Fair Value through OCI (FVTOCI):

A financial asset shall be classified and measured at fair value through OCI if both of the following conditions are met:

- 1) the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- 2) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- Financial assets at Fair Value through profit or loss (FVTPL);

A financial asset shall be classified and measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through OCI.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

For financial assets at FVTPL, net gains or losses, including any interest or dividend income, are recognised in the Statement of Profit and Loss.

Classification and Subsequent Measurement: Financial liabilities Financial liabilities are classified as either financial liabilities at FVTPL or 'other financial liabilities'.

### Financial Liabilities at FVTPL:

Financial liabilities are classified as at FVTPL when the financial liability is held for trading or is a derivative (except for effective hedge) or are designated upon initial recognition as FVTPL:

Gains or Losses, including any interest expense on liabilities held for trading are recognised in the Statement of Profit and Loss.

### Other Financial Liabilities:

Other financial liabilities (including borrowings and trade and other payables) are subsequently measured at amortised cost using the effective interest method.

The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost on initial recognition.

Interest expense (based on the effective interest method), foreign exchange gains and losses, and any gain or loss on derecognition is recognised in the Statement of Profit and Loss.

### Impairment of Financial Assets:

Expected credit losses are recognized for all financial assets subsequent to initial recognition other than financials assets in FVTPL category. For financial assets other than trade receivables, as per Ind AS 109, the Company recognises 12 month expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial asset increases significantly since its initial recognition.

The Company's trade receivables do not contain significant financing component and as per simplified approach, loss allowances on trade receivables are measured using provision matrix at an amount equal to life time expected losses i.e. expected cash shortfall.

The impairment losses and reversals are recognised in Statement of Profit and Loss.

### Derecognition of Financial Instruments:

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises an associated liability for amounts it has to pay.

On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in OCI and accumulated in equity is recognised in the Statement of Profit and Loss.

The Company de-recognises financial liabilities when and only when, the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability de-recognised and the consideration paid and payable is recognised in the Statement of Profit and Loss.

### Financial Guarantee Contract Liabilities:

Financial Guarantee Contract Liabilities are disclosed in financial statements in accordance with Ind AS 109, Financial Instruments.

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

### h.) Fair Value Measurement:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- ullet Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

### i.) Inventories

Inventories are valued as follows:

Raw materials, stores & spares and packing materials:

Valued at lower of cost and net realisable value (NRV). However, these items are considered to be realisable at cost, if the finished products, in which they will be used, are expected to be sold at or above cost. Cost is determined on weighted average basis which includes expenditure incurred for acquiring inventories like purchase price, import duties, taxes (net of tax credit) and other costs incurred in bringing the inventories to their present location and condition.

Work-in- progress (WIP), finished goods, stock-in-trade and trial run inventories:

Valued at lower of cost and NRV. Cost of Finished goods, WIP and trial run inventories includes cost of raw materials, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost of Stock-in Trade includes cost of purchase and other costs incurred in bringing the inventories to the present location and condition. Cost of inventories is computed on weighted average basis.

Waste / Scrap:

Waste / Scrap inventory is valued at NRV.

Net realisable value for inventories is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

### j.) Revenue recognition:

### i. Revenue from Contract with customers

Revenue is recognized on the basis of approved contracts regarding the transfer of goods or services to a customer for an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Revenue is measured at fair value of consideration received or receivable taking into account the amount of discounts, incentives, volume rebates and outgoing taxes on sales.

The company collects GST on behalf of the government and, therefore, it is not an economic benefit flowing to the company. Hence, it is excluded from revenue.

Significant financing component - Generally, the Company receives short-term advances from its customers. Using the practical expedient in Ind AS 115, the Company does not adjust the promised amount of consideration for the effects of a significant financing component if it expects, at contract inception, that the period between the transfer of the promised good or service to the customer and when the customer pays for that good or service will be one year or less.

- · Contract balances:
- · Trade Receivables and Contract Assets

A trade receivable is recognised when the products are delivered to a customer and consideration becomes unconditional.

Contract assets are recognized when the company has a right to receive consideration that is conditional other than the passage of time.

· Contract liabilities

Contract liabilities is a Company's obligation to transfer goods or services to a customer which the entity has already received consideration. Contract liabilities are recognised as revenue when the company satisfies its performance obligation under the contract.

ii.Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis by reference to the principal outstanding and the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

iii. Dividend income from investments is recognized when the shareholder's right to receive dividend is established by the reporting date.

### k.) Foreign currency transactions:

Foreign currency transactions are recorded at exchange rate prevailing on the date of the transactions. Foreign currency denominated monetary assets and liabilities are restated into the functional currency using exchange rates prevailing on the Balance Sheet date. Gains and losses arising on settlement and restatement of foreign currency denominated monetary assets and liabilities are recognised in the statement of profit and loss. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined.

Non-Monetary items that are measured in terms of historical cost in a foreign currency are translated using exchange rate as at the date of initial transactions.

### I.) Earnings per share:

The Basic Earnings Per Share ("EPS") is computed by dividing the net profit / (loss) after tax for the year attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, net profit / loss after tax for the year attributable to the equity shareholders is divided by the weighted average number of equity shares outstanding during the year adjusted for the effects of all dilutive equity shares.

### m.) Employee benefit Expense:

### Defined benefit plan:

The Company has defined benefit plan for post-employment benefits, for all employees in the form of Gratuity. The Company's liabilities under Payment of Gratuity Act are determined on the basis of independent actuarial valuation. The liability in respect of gratuity is calculated using the Projected Unit Credit Method and spread over the period during which the benefit is expected to be derived from employees' services.

Re-measurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the Balance Sheet with a charge or credit recognised in Other Comprehensive Income (OCI) in the period in which they occur. Remeasurement recognised in OCI is reflected immediately in retained earnings and will not be reclassified to Statement of Profit and Loss. Past service cost is recognised in the Statement of Profit and Loss in the period of a plan amendment. Interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset and is recognised in the Statement of Profit and Loss.

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds.

The defined benefit obligation recognised in the Balance Sheet represents the actual deficit or surplus in the Company's defined benefit plan. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the

650C

Chartered Accountants

### Short-term employee benefits:

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave in the period the related service is rendered. Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

### Other long - term employee benefits:

The Company's net obligation in respect of long – term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Remeasurement is recognised in Statement of Profit and Loss in the period in which they arise.

Entitlements to annual privilege leave are recognized when they accrue to employees. Privilege leave can be availed or encashed subject to a restriction on the maximum number of accumulation of leave. The Company determines the liability for such accumulated leaves using the projected unit credit method with actuarial valuations being carried out at each reporting date.

### n.) Income taxes:

The tax expense for the period comprises current and deferred tax. Tax is recognised in Statement of Profit and Loss, except to the extent that it relates to items recognised in the comprehensive income or in equity. In which case, the tax is also recognised in other comprehensive income or equity.

### **Current Tax:**

Current Tax is measured on the basis of estimated taxable income for the current accounting period in accordance with the applicable tax rates and the provisions of the Income-tax Act, 1961 and other applicable tax laws.

The Government of India, on September 20, 2019, vide the Taxation Laws (Amendment) Ordinance 2019, inserted a new Section 115BAA in the Income Tax Act, 1961, which provides an option to the Company for paying Income Tax at reduced

rates as per the provisions/conditions defined in the said section ("New Tax Regime"). The Company has opted for the New tax regime from financial year 2019-20 onwards, and accordingly the provision of tax and deferred tax liabilities has been recognized as per New Tax Regime.

### **Deferred Tax:**

Deferred tax is recognised, on all temporary differences at the reporting date between the tax base of assets and liabilities and their carrying amounts for financial reporting purpose.

Deferred tax liabilities and assets are measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting date.

Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and the liability on a net basis. Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities; and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority.

### o.) Segment Reporting- Identification of segments

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the company's Chief Operating Decision Maker ("CODM") to make decisions for which discrete financial information is available.

Based on the management approach as defined in Ind AS 108, the CODM evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments.

### q.) Provisions, Contingent Liabilities and Contingent Assets:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects current market assessment of time value of money and, where appropriate, the risks specific to the liability. Unwinding of the discount is recognised in the Statement of Profit and Loss as a finance cost. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate.

A present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

Claims against the Company where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities.

Contingent assets are not recognised in financial statements since this may result in the recognition of income that may never be realised. However, when the realization of income is virtually certain, then the related asset is not a contingent asset and is recognised. A contingent asset is disclosed, in financial statements, where an inflow of economic benefits is probable.

### r.) Cash and cash equivalents:-

Cash and cash equivalents comprise cash on hand and demand deposits, together with other current / short- term, highly liquid investments (original maturity of less than 3 months) that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value and are held for the purpose of meeting short-term cash commitment.

### s)Financial liabilities and equity instruments:

### · Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

### · Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a Company are recognised at the proceeds received.

### t.) Derivative financial instruments and hedge accounting:

The Company enters into derivative financial contracts in the nature of forward contracts with external parties to hedge its foreign currency risks relating to foreign currency denominated financial liabilities/ financial assets measured at amortized cost. The Company formally establishes a hedge relationship between such forward contracts ('hedging instrument') and recognized financial liabilities/ financial assets ('hedged item') through a formal documentation at the inception of the hedge relationship in line with the Company's Risk Management objective and strategy.

The hedge relationship so designated is accounted for in accordance with the accounting principles prescribed for a fair value hedge under Ind AS 109, 'Financial Instruments'.

### Recognition and measurement of fair value hedge:

Hedging instrument is initially recognized at fair value on the date on which a derivative contract is entered into and is subsequently measured at fair value at each reporting date. Gain or loss arising from changes in the fair value of hedging instrument is recognized in the Statement of Profit and Loss. Hedging instrument is recognized as a financial asset in the Balance Sheet if its fair value as at reporting date is positive as compared to carrying value and as a financial liability if its fair value as at reporting date is negative as compared to carrying value.

Hedged item (recognized financial liability/finacial asset) is initially recognized at fair value on the date of entering into contractual obligation and is subsequently measured at amortized cost. The hedging gain or loss on the hedged item is adjusted to the carrying value of the hedged item as per the effective interest method and the corresponding effect is recognized in the Statement of Profit and Loss.

Tech

**Jejimi** 

### u.) Government grants:

Government grants relate to income under State Investment Promotion scheme linked with GST payment and reimbursement of certain costs incurred, are recognised in the statement of Profit and Loss in the period in which they become receivable.

Government grants are not recognised until there is reasonable insurance that the Company will comply with the conditions attached to them and that the grants will be recieved.

v.) Investments in subsidiaries, associates and Joint Ventures:

The Company's investment in its subsidiaries, associates and joint ventures are carried at cost net of accumulated impairment loss, if any.

On disposal of the investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the Statement of Profit & Loss.

The Company assesses whether a contract contains a lease, at the inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the contract involves the use of identified asset;
- (ii) the Company has substantially all the economic benefits from the use of the asset through the period of lease and;
- (iii) the Company has the right to direct the use of the asset.

Where the Company is the lessee

The Company recognises a right-of-use asset ("ROU") and a lease liability at the lease commencement date. The ROU is initially measured tcost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or beforethe commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

Certain lease arrangements include the option to extend orterminate the lease before the end of the lease term. The rightof-use assets and lease liabilities include these options when it is reasonably certain that the option will be exercised.

The ROU is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the company's incremental borrowing rate. Generally, the company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprises fixed payments, including in-substance fixed payments, amounts expected to be payable under a residual value guarantee and the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments is an optional renewal period if the company is reasonably certain to exercise an extension option,

The lease liability is subsequently measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the ROU or is recorded in Statement of Profit or Loss if the carrying amount of the ROU has been reduced to zero.

Lease Liabilities have been presented in 'Financial Liabilities' and the 'ROU' have been presented separately in the Balance Sheet. Lease payments have been classified as financing activities in the Statement of Cash Flows.

Where the company is the lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

The Company recognises lease payments received under operating leases as income on a straight-line basis over the lease term

Short-term leases:

The Company has elected not to recognise ROU and lease liabilities for short term leases that have a lease term of 15 months or lower. The Company recognises the lease payments associated with these leases as an expense over the lease term. The related cash flows are classifed as Operating activities in the Statement of Cash Flows.

### (y) Material accounting Policy Information:

The Company adopted Disclosure of accounting policies (Amendments to Ind AS 1) from 1 April 2023. Although the amendments did not result in any changes in the accounting policies themselves, they impacted the accounting policy information disclosed in the financial statements.

The amendments require the disclosure of "material" rather than "significant" accounting policies. The amendments also provide guidance on the application of materiality to disclose of accounting policies, assisting entities to provide useful, entity-specific accounting policy information that users need to understand other information in the financial statements.

z). Critical estimates and judgements:

dar Tech

Palimi1

The preparation of financial statements is in conformity with Ind As requires management to make estimates, assumptions and exercise judgement in applying the accounting policies that affect the reported amount of assets, liabilities and disclosure of contingent liabilities at the date of financial statements and the reported amount of income and expenses during the year.

The management believes that these estimates are prudent and reasonable and are based upon the management's best knowledge of current events and actions.

Actual results could differ from these estimates and differences between actual results and estimates are recognised in the periods in which the results are known or

Below is an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed.

- Useful lives of property, plant and equipment Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by the management, based on those prescribed under Schedule II to the Act, at the time the asset is acquired and reviewed periodically, including at each financial year end.
- Defined benefit obligation The cost of post-employment benefits is determined using actuarial valuations. The actuarial valuation involves making assumptions
  about discount rates, future salary increases and mortality rates. Due to the long term nature of these plans, such estimates are subject to significant uncertainty. The
  assumptions used are disclosed in Note 49 to these financial statements.
- Fair value measurements Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument.
- Impairment of assets In assessing impairment, management estimates the recoverable amounts of each asset (in case of non-financial assets) based on expected future cash flows and uses an interest rate to discount them. Estimation uncertainty relates to assumptions about future cash flows and the determination of a suitable discount rate.
- Income tax Significant judgments are involved in determining the provision for income tax, including the amount expected to be paid or recovered in connection with uncertain tax positions.
- Provisions Provisions are recognised when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be
  required to settle the obligation, in respect of which a reliable estimate can be made. Provisions (excluding retirement obligation and compensated expenses) are not
  discounted to its present value and are determined based on the best estimate required to settle obligation at the balance sheet date. These are reviewed at each
  balance sheet date and adjusted to reflect the current best estimates.

Notes to the Consolidated Financial Statements

#### 41 Capital Management (Ind AS 1):

The Company's objectives when managing capital are to:

- i) maximise shareholder value and provide benefits to other stakeholders and,
- ii) maintain an optimal capital structure to reduce the cost of capital.

The capital structure of the Company consists of issued capital, share premium and all other equity reserves attributable to the equity holders. The company's risk management committee reviews the capital structure of the company.

The Company monitors capital using debt-equity ratio, which is total debt divided by total equity,

		in lakhs
Particulars	As at As as as a sal-os-	R 2023
Debt*	48,651,33 2	771.41
Equity		3,985.91
Debt to Equity	2.03	2.13

\*Debt is defined as long-term borrowings, short-term borrowings and current maturities of long term borrowings, as described in notes 20 and 25.

In addition the Company has financial covenants relating to the borrowing facilities that it has taken from the lenders like interest coverage service ratio, Debt to EBITDA, etc. which is maintained by the Company.

Reconciliation of Effective Tax Rate:		₹ in lakhs

#### Financial Risk Management Objectives (Ind AS 107)

The Company's principal financial liabilities, other than derivatives, comprises of borrowings, lease, trade and other payables. The main purpose of these financial liabilities is to finance the company's operation's. The company's principal financial assets, other than derivatives include trade and other receivables, investments and cash and cash equivalents that derive directly from its operations.

The Company's activities expose it to market risk, liquidity risk and credit risk. The Company's overall risk management focuses on the unpredictability of financial markets and seek to minimise potential adverse effects on the financial performance of the Company. The company uses derivative financial instruments, such as foreign exchange forward contracts that are entered to hedge foreign currency risk exposure. Derivatives are used exclusively for hedging purposes and not as trading or speculative instruments.

Risk	Exposure Arising From	Measurement	Management Street Lands
A. Market Risk			of an agent and a south and a south a
	Committed commercial transaction	Cash Flow Forecasting	
1) Foreign Exchange Risk	Financial Instruments not denominated in INR	Sensitivity Analysis	Forward foreign exchange contracts
Z) Interest Rate	Long Term Borrowings at variable rates	Sensitivity Analysis, Interest rate movements	Active monitoring of Interest rates volatility
l) Commodity Price Risk	Movement in prices of commodities	Sensitivity Analysis, Commodity price tracking	Active inventory management, Sales Price linked to purchase price
B. Credit Risk	Trade receivables, Investments, Derivative financia instruments, Ioans	Aging analysis, Credit Rating	Credit limit and credit worthiness monitoring, Criteria based approval process
C. Liquidity Risks	Borrowings and Other Liabilities and Liquid investments	Rolling cash flow forecasts	Monitoring of credit lines and borrowing limits

The Company has policies, procedures and authorisation matrix for utilisation of funds, which ensures deployment of fund in prudent manner and the availability of funding through an adequate amount of credit facilities to meet obligation when due. Compliances of these policies and procedures are reviewed by treasury team on periodical basis.

The Company's treasury team updates Senior management on periodical basis about implementation and execution of above policies. It also updates senior management on periodical basis about various risk to the business and status of various activities planned to mitigate the risk.

#### A. Market Risk

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, commodity prices, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and borrowings,

#### 1) Foreign Currency risk

Foreign currency risk is the risk of impact related to fair value or future cash flows of an exposure in foreign currency, which fluctuate due to changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to import of raw materials, capital expenditure and exports. When a derivative is entered for the purpose of being a hedge, the Company negotiates the terms of those derivatives to match the terms of the hedged exposure.

The Company evaluates exchange rate exposure arising from foreign currency transactions. The Company follows established risk management policies and procedures. It uses derivative instruments like foreign currency forwards to hedge exposure to foreign currency risk.

Forward Contracts Forward Contracts	Exports Imports	USD	106.34 35.43	112.95 101.66

#### 3) Commodity Price Risk

Commodity price risk for the Company is mainly related to fluctuations in raw material prices linked to various external factors, which can affect the production cost of the Company. To manage this risk, the Company monitors factors affecting prices, identifies new sources of supply of raw material, monitors inventory level, etc. Additionally, processes and policies related to such risks are reviewed and controlled by senior management and monitors inventory level, etc. Additionally, processes and policies related to such risks are reviewed and controlled by senior management and monitors inventory level, etc. Additionally, processes and policies related to such risks are reviewed and controlled by senior management. procurement department.

#### B. Credit Risk Managen

Credit risk arises when a customer or counterparty does not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financial grade from its

Trade receivables are consisting of a large number of customers / distributors. The Company has credit evaluation policy for each customer / distributor and based on the evaluation credit limit of each customer / distributor is defined. The Company's marketing team are responsible for monitoring receivable on periodical basis.

Total trade receivable as on March 31, 2024 is Rs. 22,536.22 Lakhs (March 31, 2023 - Rs. 4682.30 Lakhs)

As per simplified approach, the Company makes provision of expected credit losses on trade receivables using a provision matrix to mitigate the risk of default payments and makes appropriate provision at each reporting date wherever outstanding is for longer period and involves higher risk. The policy for creating provision for credit losses on trade receivables is as per following provision may

Portfalls	Loss Allowance
O to 1 year	Nil
Above 1 year	100%

	Provision
0 to 1 year Above 1 year	Nil
Above 1 year	100%

Movement of provision for doubtful debts:		₹ in lakhs

Less: Utilised during the year	10/20/200	- C. T. M 1
Closing Provision	334.52	341.89

#### ts, Derivative Instruments, Cash and Cash Equivalent and Bank Deposit:

Credit Risk on cash and cash equivalent, deposits with the banks / financial institutions is generally low as the said deposits have been made with the banks / financial institutions who have been assigned high credit rating by international and domestic rating agencies.

Credit Risk on Derivative Instruments are generally low as Company enters into the Derivative Contracts with the reputed Banks and Financial Institutions.

#### 8. Liquidity Risk

Euclouity nas. Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at reasonable price. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of credit facilities to meet obligations when due. The Company's treasury team is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the Company's liquidity position through rolling forecasts on the basis of expected cash flows.

#### 45 Fair Value measurements (Ind AS 113)

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in an orderly transaction in the principal (or most advantageous) market at measurement date under the current market condition regardless of whether that price is directly observable or estimated using other valuation techniques. The Company has established the following fair value hierarchy that categorises the values into 3 levels. The inputs to valuation techniques used to measure fair value of financial instruments are:

Level 1: This hierarchy uses quoted (unadjusted) prices in active markets for identical assets or liabilities. The fair value of all quoted investments which are traded in the stock exchanges is valued using the closing price or dealer quotations as at the reporting date.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on company specific estimates. Unquoted investments are valued using the closing Net Asset Value. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

	TOTAL LANGUAGE	Fair Value

Fair Value hedging instruments				
Derivative (Liability)/ Assets - level 2	*	27.01	(160.91)	
Total	4,	042.18	(160.61)	

The management assessed that cash and bank balances, trade receivables, trade payables, cash credits and other financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The following methods and assumptions were used to estimate the fair values:

- (a) The fair values of the quoted investments are based on market price/net asset value at the reporting date.
- (b) The fair value of unquoted investments is based on closing Net Assets Value.
- (c) The fair value of forward foreign exchange contracts is calculated as the present value determined using forward exchange rates and interest rate curve of the respective currencies.
- (d) The fair value of currency swap is calculated as the present value determined using forward exchange rates, currency basis spreads between the respective currencies, interest rate curves and an appropriate

#### 46 Revenue (Ind AS 115)

#### Notes to the Consolidated Financial Statements

- A) The company is engaged in manufacturing and selling steel based products. Sales are made at a point in time and revenue from contract with customer is recognised when goods are dispatched and the control over the goods sold is transferred to customers. The Company does not expect to have any contracts where the period between the transfer of goods and payment by customer exceeds one year. Hence, the Company does not adjust revenue for the time value of money.
- B) Revenue recognised from Contract Liability (Advances from Customers):

0.5% Decrease in salary escalation clause	-4.90%	-5.56%	-7.37% to -6.40%	-7.07%	

<sup>\*</sup> These Sensitivities have been calculated to show the movement in defined benefit obligation in isolation and assuming there are no other changes in market conditions at the accounting date. There have been no changes from the previous periods in the methods and assumptions used in preparing the sensitivity analysis.

xiii) The estimates of future salary increases considered in actuarial valuation takes into account inflation, seniority, promotion and other relevant factors

#### xiv) Asset Liability matching strategy:

The money contributed by the Company to the Gratuity fund to finance the liabilities of the plan has to be invested for funded gratuity plan. The trustees of the such plan have outsourced the investment management of the fund to an insurance Company. The insurance Company in turn manages these funds as per the mandate provided to them by the trustees and the asset allocation which is within the permissible limits prescribed in the insurance regulation. Due to the restriction in the type of investment that can be held by the fund, it is not possible to explicitly follow an asset liability matching strategy. There is no compulsion on the part of the Company to fully prefund the liability of the Plan.
